Shadydale Lane Improvements Construction Notice

November 18, 2009

The reconstruction of Shadydale Lane, east of FM-740, will begin Monday, November 23 by beginning construction of the connection to the Fox Chase subdivision. The reconstruction of the asphalt section will begin after November 30. The project is scheduled to take 5 months to complete. Erosion protection will be installed and material for the project will be delivered prior to Monday. The project includes the construction of a concrete residential street (28 feet wide) with curb and gutter; an underground storm sewer system; a sidewalk on the south side of the road; and a new water line along the north side of the road.

After the connection to the east is installed, Shadydale Lane will be reduced to a one-way (eastbound towards Oak Drive), one-lane roadway to enable the road to be constructed one lane at a time. Access to existing driveways may be limited, for a short duration, at certain times during the construction.

If you have any questions or need information, please call City inspector, John Cranson at 214-543-3952; City Engineer, Chuck Todd or Project Manager, Kathleen Lappen at 972-771-7746.

Thank you for your patience as we work to improve your neighborhood and our City.
