

City of Rockwall

FY 2019 – 2020

Proposed Budget

City of Rockwall
The New Horizon

MEMORANDUM

TO: Mayor and City Council
FROM: Rick Crowley, City Manager
DATE: August 19, 2019
SUBJECT: FY20 Budget Message

Transmitted hereby, please accept the submission of the proposed FY20 Annual Operating Budget. As required by the City of Rockwall Charter, the proposed FY20 Annual Operating budget is a balanced budget. As in previous years, the proposed budget has been prepared to reflect a conservative approach to both estimated revenues and recommended expenditures for FY20. The proposed budget provides sufficient funding to maintain current levels of services to our Citizens, and proposes increased levels of service primarily in the Fire, Parks Maintenance, and Police Departments. As directed by the Council, the FY20 budget has been prepared based on application of the Effective Tax Rate and includes a corresponding reduction from the current Tax Rate to that Effective Rate.

A total of \$145,151,000 in new value has been added to the rolls for 2020. This is down from the historic high of \$198,269,000 added as new value last year. Additionally, taxable value of existing taxable properties has increased by about 3.69 % due to reappraisals. As a strategic measure, the percentage split between residential and non-residential value is now about 69.5% / 30.5%.

DEBT SERVICE FUND

The Debt Service Fund provides funding from levied taxes to pay the debt obligations of the City. The tax rate is split between maintenance and operations and the annual principal and interest payments on the City's outstanding debt. The FY20 debt service portion of the tax rate will be 16.84 cents/\$100 of assessed value - down from last year's 17.92 cents/\$100 due to both added value and reappraisals. In the 2018 bond election information the City stated that we would attempt to issue new debt as existing debt matured allowing the City to maintain a fairly flat debt service tax rate while taking advantage of growth in assessed value.

GENERAL FUND

As has been the case for the past seven (7) years, the proposed budget, as directed by the City Council, assumes the adoption of the calculated Effective Tax Rate which will result in a Tax Rate decrease from

the Current Tax Rate of **40.21 cents/\$100 valuation** to the Effective Rate for the coming year of **38.7991 cents/\$100 valuation** – a Tax Rate **decrease** of **1.4109 cents/\$100 valuation**. Based on the state prescribed Effective Rate calculation formulas, this is the theoretical rate at which the City would not be increasing taxes for the coming year. For reference, 1 cent/\$100 valuation produces about \$533,800 in Ad Valorem Tax revenue for FY20. (Based also on the State-prescribed formula, the Roll Back Rate is 40.85 cents/\$100 valuation.) Of course, the impact of the new rate on individual properties is a function not only of the Tax Rate adopted by the City, but also of the assessed value of the individual properties established by the appraisal process. It should be noted that FY20 will be the last year that the current State-prescribed formulas will be used and that these will be replaced for FY21 with those adopted during this past Legislative Session.

A twenty-year review of the City’s historic tax rates is shown within the Debt Service section of the budget. The table below shows the adopted rate history since FY12 and the proposed rate for FY20:

<i>Fiscal Year</i>	<i>Adopted Tax Rate</i>
<i>FY12</i>	<i>50.31</i>
<i>FY13</i>	<i>50.25</i>
<i>FY14</i>	<i>50.25</i>
<i>FY15</i>	<i>49.55</i>
<i>FY16</i>	<i>48.53</i>
<i>FY17</i>	<i>45.43</i>
<i>FY18</i>	<i>42.36</i>
<i>FY19</i>	<i>40.21</i>
FY20	38.7991

The City of Rockwall will end FY19 in a strong financial position. The City has had a good year in FY19 with overall revenues exceeding budgeted expectations. The **rate of increase** in Sales Tax, the City’s largest source of revenue, for FY19 is projected to be about 5.33% as compared to an increase of 3.0% projected for the FY19 budget.

With taxable sales in the City being influenced by the local, state, and national economies; Sales Tax revenue is difficult to accurately project. This year, as in previous years, we believe that we have taken a conservative approach to sales tax budget projections - a **3% increase**. Actual collections in excess of the amounts budgeted have contributed to strong General Fund Reserves. For the last seven (7) years a strong General Fund Reserve allowed the City to purchase vehicles, equipment, and other major purchases with cash; therefore, the prior practice of issuing short-term (4 – 10-year) debt has not been necessary with the exception of fire trucks and exceptionally expensive specialized public works equipment. In FY18, these purchases were made from current-year revenue. General Fund Reserve is proposed for similar use in the proposed FY20 budget.

Although the effect on Franchise Fees paid by telephone and data service providers resulting from new State Legislation passed in this session is difficult to predict because of the state-wide choices that the legislation gives to these utilities, a revenue reduction in Franchise Fees to the General Fund of about \$175,000 has been projected in the proposed budget. And, as indicated in the Water and Sewer Rate Study presented during the past year, a partial restoration (\$200,000) of the transfer from the Water and

Sewer Fund has been included in General Fund revenues. While the transfer amount shown does not reflect full reimbursement to the General Fund for services and costs provided by the General Fund, it does begin a staged recovery of appropriate reimbursement transfers which, given continued financial recovery of the utility fund, will be accomplished over the course of the next several years.

Decisions to expend General Fund Reserves in prior years has not resulted in compromising the City's financial position. The City has maintained its General Fund Reserve at a level which complies with locally adopted financial policies. The FY20 Annual Operating Budget proposes significant expenditures from Reserve but contemplates ending the year with an amount compliant with local financial policies plus an excess of about \$300,000.

Department	Description	Amount
Internal Operations	Building Repairs	\$35,900
Internal Operations	Pickup Trucks (2)	\$91,000
Patrol	Vehicles	\$379,700
Patrol	GETAC Cameras	\$47,325
Patrol	Taser Program	\$24,825
CID	Vehicle	\$29,000
Building Inspections	Pickup Truck	\$28,000
Parks	Ballfield Equipment	\$30,750
Parks	Pickup Trucks (2)	\$84,000
Parks	Emerald Bay Trail Extension	\$25,000
Parks	Pickle Ball Court Lights	\$50,000
Harbor	Fountain Basin Liner	\$165,000
Harbor	Fountain area Fencing	\$30,000
Engineering	Pickup Trucks (2)	\$57,000
Streets	Brush Truck w/ Grapple	\$195,000

Continued increases from historic per capita Sales Tax collections (\$340/capita - noted in strategic planning data - to the FY17 rate of about \$378/capita, the FY18 rate of \$389/capita, the projected rate of about \$406/capita for FY19, and the currently projected rate for FY20 of \$414/capita) contribute to the use of a 3% increase for the purposes of development of this budget. While we believe that this is duly conservative, it does presume a **continued strong local economy** through the end of FY20 while considering some potential for a slowing of the rate of increase during the period.

As a service organization, expenditures for personnel account for a large percentage of the City's operating budget. Several new positions are included in the FY20 proposed budget. Added employee positions include:

Fire Department

3 Firefighters (will leverage a total of 12 new positions if a pending grant application is approved)

3 Captain promotions from Driver/Engineer

Police Department

1 Mental Health Officer

Parks Maintenance Department

1 4-person Maintenance Crew

Water Operations Department

1 Equipment Operator

Considerable study of the City's current compensation system has occurred over the course of the last year. A Council Subcommittee has reviewed the City's current practices, met with various department heads, and examined market data from the past as well as the current market data that was available at the time of their deliberations. While wholesale changes from the current system were not identified, there were a number of concerns expressed that the Staff has endeavored to address in the proposed FY20 budget while, at the same time, continuing to be respectful of internal equities in compensation throughout the City organization. While the Subcommittee has not seen the method by which this budget proposes to address these concerns and the proposed budget does not currently address every market concern identified by the surveys of "market cities", it does address several specific concerns expressed during these discussions.

The proposed budget does include a continuation of the step-based merit compensation system that results in increases of \$788,000 (of which \$505,000 is the merit-based pay for the long-term employees and, therefore, does not equate to new budget dollars). The proposed budget includes adjustment of grade and step tables which amounts to \$588,825 and includes adjustments of 3-4% overall. An additional \$78,301 in market adjustments applies to 29 other employees in the City (including 22 maintenance worker positions). Finally, adjustments to entry-level public safety positions have been made in anticipation of adjustments that are proposed to be made (outside of our market city data) but in Rockwall County. Market surveys do indicate the need for market adjustments in both the Police and Fire Departments. The need to address these market issues while maintaining internal equity resulted in proposing Police market adjustments as indicated and generally applying those adjustments in the Fire Department personnel as well. Certification pay for Fire Department personnel who are licensed paramedics has also been added.

Departments have prepared and submitted budget proposals consistent with tenants of the City's strategic planning. Updated departmental strategic plans were recently presented to the City Council. Several departmental discussions of interest as relates to the FY20 budget proposal are noted below:

Fire

An amount equal to three (3) new Firefighter positions has been included in the proposed budget. As previously addressed with the City Council, if a recent grant application is approved, this would leverage sufficient funding for twelve (12) new Firefighter positions and these positions would be filled. The proposed budget provides funding of firefighting equipment for three (3) new positions, however,

sufficient reserve is available in the Fire Equipment Fund to outfit the (9) additional Firefighters should that grant be approved. The grant announcement has been postponed by the granting agency from July 1 to September 30. The proposed budget also includes funding for 3 Driver/Engineers to be promoted to Captain continuing the department's effort to put supervision on each shift in 2 stations.

Streets

Voters approved a substantial issuance of debt for concrete street reconstruction projects over the next ten (10) years, but there remains substantial work to be done to continue to accelerate major maintenance and repair work on other concrete streets, asphalt streets, alleys, and sidewalks that are not included in that Bond Project list. Existing alleys are used by many residents for primary access to their homes and for the collection of solid waste. In FY19 about \$500,000 was added to the street materials budget to fund reconstruction or resurfacing of several City parking lots with the remaining appropriations being available for work on streets, alleys, and sidewalks. The proposed FY20 budget does not include the addition funds for additional City parking lot work, and additional needed work on these parking lots has been deferred to future years. This results in a decrease in the proposed budget shown for street materials, but includes a small increase in the amount available for use on street, alley, and sidewalk maintenance for FY20.

Police

One additional Police Officer position (a Mental Health Officer) has been proposed in the FY20 budget. Over the last several years the number of police interactions with persons who display symptoms of mental illness has increased substantially – not only in Rockwall, but Rockwall does have a relatively high number of law enforcement mental health referrals. In a number of jurisdictions, the addition of officers that can specifically focus on these special law enforcement issues has resulted in an improved ability to manage these circumstances and reduce the amount of time spent by patrol officers dealing with related problems.

Parks Maintenance

Adding several maintenance areas along City roadways resulted in an increase of about 3% to contract mowing and maintenance costs being proposed in the FY20 budget, but increased maintenance requirements and increased park and program participation continues to increase maintenance needs as well. The FY20 proposed budget includes the addition of a four (4) member crew to address these needs. The number of Parks Maintenance employees has not been substantially increased in several years, and addressing these maintenance needs by the addition of employees is recommended for the coming year.

WATER AND SEWER FUND

This year, Rockwall has experienced a higher than normal level of rainfall through June 2019 causing lower than normal consumption for the early summer months. We will not meet our minimum annual demand for FY19. An increase in the rate for wholesale treated water is anticipated to be 2.4% in FY 20 from the North Texas Municipal Water District.

The Water and Sewer Fund reserves will be approximately 150 days of operating expenses with bond covenants prescribing a minimum of 60 days. Due to uncertain future sales and continuing increases in prices, regulatory requirements, and major capital projects that we know will occur in the next few fiscal years this is reasonable for the City to set in FY 2020.

Most of the Water and Sewer Fund expenditures increases are for recurring costs associated with the purchase of treated water and wastewater treatment. We will add one new Equipment Operator position in Water Operations as well as increase the number of meter change outs accomplished during the year. We will begin the process to study and engineer the dismantling of the Boydston water tower. The Boydston water tower has been out of service for many years and will not be added back to the City's water system. There are currently two cellular providers located on this water tower. There are funds allocated in this budget for a structural engineering consultant to evaluate whether the cellular providers can be relocated to the radio system structural tower adjacent to the water tower, and funds for a consulting civil engineering firm to evaluate, cost estimate, and manage the dismantling of the water tower in a safe manner. This budget also anticipates the replacement of one fleet vehicle in the water division. The Sewer division budget includes expenses for adding backup generators to 3 sewer lift stations and additional equipment for operating and maintaining the City's wastewater system including a second Vacuum Truck.

EMPLOYEE BENEFITS AND WORKERS COMPENSATION FUNDS

The City's health insurance fund continues to perform as well as (or better than) it has the last several years. Just a few years ago, the fund had a significant negative balance, but through focus on increasing employer and employee contributions and refining offerings, we've rebuilt a reserve balance of at least 24% of our typical expenditures. The past year has, thus far, been a good year for the fund in terms of increasing fund reserve. We do not anticipate the need to increase employer contributions or employee contributions (premiums). The City has also, thus far, had a good employee safety year. The City continues to enjoy an overall excellent employee safety record. As an incentive to continue safe operations at the forefront, the City offers a financial incentive in those years that the Workers Compensation claims experience are consistent with safe workplace goals. While we have not had the good fortune to give these safety incentives (usually around \$250/employee/year) every year, the FY20 proposed budget anticipates the safety incentives will be provided in December 2019.

LOOKING FORWARD

Future needs will continue even as the economy cycles:

- Adding revenue and/or new revenue sources to meet these and other future needs
- Preserving current revenue sources
- Continuing the development of the Equipment Replacement program
- Continued implementation of strategic initiatives targeting increased revenue (Sales Tax, Residential/Non-residential Ad Valorem Tax ratio, etc.)
- “Normal year” water demands such that the historic transfer from the Water and Sewer Fund may resume to the General Fund – a challenge considering the continued and upcoming increases in the costs of water and sewer supply and services
- Continuing to improve efficiencies in operations

I believe that the Proposed FY20 Annual Budget is an aggressive yet responsible and conservative approach to guiding the City’s activities for the coming year. I would like to thank all Department Heads and all of those who contributed to the budget requests submitted for consideration. I would specifically like to thank Assistant City Manager, Mary Smith, and the Finance Department staff for the many hours of work that has gone into the proposed budget development process.

I would also like to thank the Mayor and Council in advance for the time and study that I know each of you will invest in the evaluation of the budget proposal. As always, if you have any questions about the proposed budget, please do not hesitate to contact Mary Smith or me.

Respectfully Submitted,

A handwritten signature in black ink that reads "Richard R. Crowley". The signature is written in a cursive, flowing style.

Richard R. Crowley

City Manager

City of Rockwall
The New Horizon

MEMORANDUM

TO: Rick Crowley, City Manager
FROM: Jeffrey Widmer, Director of Building Inspections and Code Enforcement
DATE: July 1, 2019
SUBJECT: Population Estimates

COG reported our 1/1/19 population as 44,110. In keeping with adopted policy, we have calculated the population estimate for 1/1/2020. We averaged 26 single family permits per months from 1/1/19 – 5/31/19. Typically we have taken a conservative approach and assumed we will continue to issue the same average number of permits for the remainder of the calendar year. Using this premise, we will end the year with 312 single family permits issued. COG recognizes 2.897 residents per single family dwelling and an occupancy factor of .967 in the City of Rockwall. Additionally, The Commons has added 140 units which are open this year and we expect the new condos at the Harbor to receive certificate of occupancy on 240 units before year's end. COG recognizes 1.831 residents per multi-family unit with an occupancy rate of .951.

1/1/19 COG Population Estimate	44,110	
312 X 2.897 X .967 =	874	Single family
380 X 1.831 X .951 =	<u>661</u>	Multi-family
1/1/20 Population Estimate	45,645	

Using this methodology the City 1/1/2020 population will be 45,645.

City of Rockwall
The New Horizon

MEMORANDUM

TO: Rick Crowley, City Manager
FROM: Mary Smith, Assistant City Manager
DATE: August 19, 2019
SUBJECT: Ad Valorem Taxes

The certified assessed value is \$6,048,494,054 and includes senior values of \$618,736,946 and new improvements of \$145,151,336. The certified value reflects an increase of 6.24% over the prior year of which 2.55% is from new values.

A tax rate of 38.7991 cents per hundred dollars of assessed value was used to prepare the 2019-20 Proposed Annual Budget.

The City's debt service rate is calculated to be 16.84 cents and the proposed operations rate would be 21.9691 cents for a proposed combined rate of 38.7991 cents per hundred dollars of assessed value. A penny on the tax rate generates \$533,810. Our Effective Tax Rate is 38.7991 cents and the Rollback Rate is 40.8528 cents.

Effective Rate – is the rate needed to collect the same tax dollars as FY19.

Rollback Tax Rate – is the rate that would generate 8% more maintenance and operations tax dollars than in the prior year plus the next year's debt service dollars.

This will be the last budget set using these terms as new terminology and formulas are prescribed for budgets for FY2021.

Debt Issuance

As presented, the proposed budget anticipates issuance of \$16 million in new voter-approved debt during the fiscal year. These are construction dollars approved in the 2012 bond election road projects and engineering and early construction costs for 2018 bond projects. We may also elect to restructure some outstanding debt for interest savings but that will be market driven and determined later in the calendar year.

Public Hearings and Rate Adoption

The Truth in Taxation procedures require two public hearings if the tax rate increases revenue by an amount over the amount calculated as the Effective rate. The proposed tax rate of 38.7991 cents does not require tax rate public hearings.

The City Charter requires a public hearing on the proposed budget, which can be conducted at the September 3rd Council meeting and will be advertised as such. Adoption of the tax rate and budget will be included on the September 16th Council agenda.

SUBJECT: Harbor Debt Analysis

The Appraisal District has reported the certified assessed values in the Harbor TIF Zone. Valuations totaled \$113,855,604, resulting in a captured value of \$98,543,154. This is a valuation increase of 13.78% due primarily to the partial value on the ground for the Harbor condos on January 1. Taxes on the captured value are revenues to the Zone.

The City has committed 100% of taxes on the captured value to the TIF. City property taxes to the Zone should total \$382,400.

Sales taxes have been estimated for fiscal year 2019 at \$306,950. 100% of the City's sales tax generated in the TIF is revenue to the zone.

244 BUILDING REPAIRS	106,819	94,000	94,000	115,500

Notes:	Building Repairs
The Internal Operations Department maintains more than 127,000 square feet of city owned facilities. Request is to increase this line item due to aging facilities. Increase to \$70,000.	
<p>Specific Projects:</p> <p>\$9,600 Leak Detection and Moisture Proofing at City Hall City Hall is now 17 years old and has experienced leaks in certain areas of the first floor. Staff has explored these in the past and performed moisture detection and prevention with short term success. The staff has identified 10 separate areas that is suspected of having rainwater infiltration, primarily around doors, windows, exterior walls, bridge connections, floor drains, and others. This request is to hire a professional moisture protection inspection consultant to investigate the entire exterior envelope of the building to verify and identify any other locations and provide a long-term solution for waterproofing city hall below grade and on the plaza and south roof system.</p> <p>\$35,900 Building Renovations (City Hall & The Center) The Center is almost 17 years old and needs to have the kitchen and public restroom facilities upgraded. City hall is also 17 years old and needs renovations performed to the restrooms. This request is to remove the outdated wallpaper and replace it with a textured surface and fresh and light-colored paint. The fixtures and partitions are in good condition, but the wallpaper surface is becoming more difficult to keep clean. Changing the surface will allow the IO staff to repaint in the future as needed. The Center kitchen has cabinets and laminate countertops that have been repaired many times and needs to be replaced. It is proposed to install new upper/lower cabinets and hard surface countertops for long-term durability.</p> <p>The Center restrooms: \$2,200 The Center kitchen: \$30,000 City Hall restrooms (5): \$3,700 Total: \$35,900</p>

Notes:	Replace Fleet Vehicles
<p>Two new utility vehicles – This request is for two new utility vehicles for Internal Operations Department maintenance technicians. Both vehicles are 2003 models. Unit 182 has 111,400 miles. The city has spent over \$10,000 in maintenance cost over the life of this vehicle. This year, this vehicle has begun to burn oil more often with extra quarts of oil having to be added every few weeks. The power steering has experienced issues as well. Unit 188 is also a 2003 model and has 82,300 Miles. The city has spent only about \$4,000 on this unit for maintenance over the life of the vehicle but the employee driving it has self-performed some of the light maintenance in the past. Cost to replace two ¾ ton trucks with utility bed and lift gate: \$91,000</p> <p>CITY MANAGER'S COMMENTS: Approved from General Fund Reserves</p>

Notes:	Dues & Subscriptions
Increase in the number of personnel holding a Texas Commission on Fire Protection certification. Increase in the annual dues for Chief and Asst Chief for the Texas Fire Chiefs Assoc. Finally, we have upgraded our online training platform to a much more robust program that includes not only full-time personnel but volunteers as well.

Notes:	Fire & Life Safety Educator
<p>We are requesting to hire a dedicated civilian life safety educator to increase public safety awareness within the community. During our recent work on a Community Risk Assessment project, the lack of a dedicated Public Safety Educator was noticed. Not having a dedicated Public Safety Educator leads to Fire Inspectors not being in the field while they are conducting, planning, and developing public education in preschools, elementary schools, and community events. Several years ago, this position was funded, however, as a result of increasing workload; the position was adapted into a full fire inspector position.</p> <p>The purpose of this position is to manage and coordinate all public fire education programs and life safety related activity. The work would designing and developing curriculum for educational programs, conducting workshops, making presentations, and participating in any other related activity deemed effective in promoting or conveying fire safety principles, procedures, and safe practices. This position will require the employee to manage the use of the RFD's fire safety trailer, adeptly operate all of its equipment and safety features, and be capable of training and explaining its operation and maintenance requirements to other employees, CERT members, and/or other responsible civilians.</p> <p>This position will manage programs such as RISD's Fire Prevention Month programs, Citizen's Fire Academy, Open House, Juvenile Fire-setter Intervention, and CERT. New programs that this position will facilitate will include Junior Fire Academy, Fire Explorers, Child Passenger Safety programs, Community CRP programs, "Stop the Bleed" programs, and others as a result of the Community Risk Reduction program.</p> <p>\$75,136 Salary and Benefits 2,800 Computer 1,200 Cell phone 43,000 Vehicle</p> <p>CITY MANAGER'S COMMENTS: Disapproved</p>

Notes:	MobileEyes Company Inspector
<p>\$6500 - For MobileEyes Company Inspector for which enables our firefighters to create pre-fire plan surveys and perform routine fire inspections using any internet-connected device. Users are able to note hazardous materials, fire safety violations, structural information, exit routes and other important property features helpful while responding to a fire-related emergency.</p> <p>This will assist in increase the frequency of risk based fire inspections across the City by the Fire Department.</p> <p>CITY MANAGER'S COMMENTS: Approved</p>	

Notes:	MobileEyes Permit/Plan Review
<p>\$8,950 First year cost (Annual fees of \$5,606) - MobileEyes Permit/Plan Review Software is phase 2 of our paperless fire inspection, plan review, and permitting process to improved department productivity. This software will enable fire department personnel to easily and efficiently process new construction permit requests, plan reviews, and online inspection request. The product's built-in portal saves time by facilitating permit and plan submittals and communications between contractors and office personnel. Permits tied into inspection schedule for easy retrieval during field inspections. Automated, real-time communication between office personnel, contractors and owners. Contractors submit permit applications online, project updates are automatically posted and electronically sent to contractors. Reports securely archived and indexed for immediate, remote access. The software allows for exporting, printing or emailing year-end and monthly reports easily and efficiently. It incorporates our custom fee schedule for efficient fee calculations and handles all billing and accounts receivable tasks.</p> <p>CITY MANAGER'S COMMENTS: Approved</p>

Notes:	Tuition and Training
<p>\$5,500 increase is requested to bring in Chief Kent Williams (Ret), President of Breach Point Consulting. In order to allow for all sworn personnel to attend one of these sessions. We have partnered with Allen and Rowlett PD and have four 8-hour seminar days scheduled in February 2020, one day dedicated to spouses/family. The seminar will assist those attending with gaining a distinctly different perspective on the unique and potentially problematic consequences of performing well within a law enforcement culture. Executives, officers and supervisors will examine better ways to reduce their stress and simultaneously garner greater staff compliance with department standards. Leaders will address stressors encountered by the rank and file which influence the essential balance between their professional and personal relationships.</p>

Notes:	Mental Health Officer
<p>With the growth of our population comes a greater demand on officers responding to mental health issues resulting in Emergency Detention. In 2018 and 2019, we averaged three emergency detention calls a week. These types of calls took officers off the street an average time of over 2 hours to transport these individuals to either Dallas or Garland mental health facilities. In an effort to be proactive in addressing the mental health calls in the City, and provide a professional, compassionate and dedicated specialized police response to mental health consumers and their families, we request a full-time mental health officer. This officer would collaborate with mental health professionals, while improving outcomes for consumers, reducing demands on police resources, and improving safety for officers, and the community we serve.</p> <p>\$89,421 Salary and Benefits 2,800 Computer 51,700 Vehicle and other equipment</p> <p>CITY MANAGER'S COMMENTS: Approved</p>

Notes:	Patrol Vehicle Repair increase
<p>Requesting \$25,000 be added to the patrol vehicle repair budget. We are now averaging over 100,000 miles on patrol vehicles before asking for replacements. Both Chevy and Dodge Corporations have reduced their warranty on power trains which has caused us to spend a larger amount on major repairs for transmission and motor problems. We have also experienced an increase in other major mechanical areas such as the braking systems and suspension systems for the Dodge Charger and the electrical systems in the older Chevy Tahoes.</p> <p>CITY MANAGER'S COMMENTS: Approved</p>

Notes:	GETAC Cameras
<p>In order to continue to achieve one of our strategic initiatives, we are asking for an additional \$ 2,400 to purchase 6 GETAC body cameras, port docks and magnetic mounts. Two of the cameras will be assigned to the court bailiffs. Body cameras have become an industry standard and they help the department promote transparency and accountability. The court bailiffs will utilize their body cameras while performing their duties out in the field. The 4 additional cameras will serve as replacements and assigned to new hires. These are the same cameras that have been issued to patrol officers to wear daily.</p>

Notes:	GETAC System
<p>Requesting \$1300 to purchase a GETAC Body Camera multi-dock charging station. The docking system will assist the traffic unit as well as provide a backup system to the department's one communal docking station.</p> <p>We request \$46,000 to purchase four (4) new GETAC Mobile Data Computer Systems for new patrol vehicles. The systems are used to communicate and dispatch calls to officers in the field, run license plates and suspects for outstanding warrants or special alerts (e.g. missing person, sex offender), complete offense, incident and accident reports, and record incident based data, which is utilized to tailor the Department's Annual Racial Profiling Report which is required to be submitted to the State each year. The GETAC is also the platform for the audio and video recording system utilized to document an officer's contacts, which are used in criminal courts cases and other purposes.</p> <p>CITY MANAGER'S COMMENTS: Approved from General Fund Reserves</p>	

Notes:	Taser Replacement Program
<p>Requesting \$24,825 for the second year of the Taser Replacement Contract that was approved in the last budget. The program allowed us last year to replace all the department's outdated Tasers with new models and spread the cost over a five year period.</p> <p>CITY MANAGER'S COMMENTS: Approved from General Fund Reserves</p>

Notes:	Software Licensing
<p>Offender Watch Software License CID is requesting a \$1,200 increase for the Offender Watch program. Offender Watch is a data base used to supplement the current sex offender information that is tracked by the Criminal Investigations Division. The Rockwall Police Department has partnered with the Rockwall County Sheriff's Office to make Offender Watch available to our citizens.</p> <p>Socrata Crime Info Software \$9,480 We have previously used Command Central and Crime Reports Internet-based products by Motorola. The contract expires in December 2019 and we will not be renewing it. Tyler Technologies now offers a better product, Socrata, which will provide a higher level of data analytics. With its Tyler interface to our records system, Internet data will be updated every two to three minutes, whereas the Motorola data only updated once every 24 hours. Citizens will also have an improved web view of basic crime data in Rockwall as well as the ability to set up crime notifications for their neighborhood. There's a one-time implementation and training fee of \$3,480 and a \$6,000 annual software license fee.</p> <p>CITY MANAGER'S COMMENTS: Approved</p>	

237 UNIFORM SERVICE	4,200	4,200	4,200	7,200
---------------------	-------	-------	-------	-------

Notes:	Narcotics Clothing Allowance
<p>An increase of \$3,000 is requested to provide a uniform allowance to each member of the Narcotics Unit which consists of a sergeant and four detectives. The Narcotics Sergeant and Detectives are required to provide clothing for their daily responsibilities and are required to wear appropriate attire for court appearances.</p> <p>CITY MANAGER'S COMMENTS: Approved</p>

Notes:	IT Online Training
<p>Requesting \$900 for IT staff to have access to Test Out online training courses., Test Out provides numerous online IT training courses in the areas of Windows desktop support, IT fundamentals, network and server administration, and network security.</p> <p>Requesting \$4,600 for IT staff to receive training in Net Motion. Net Motion is the secure CJIS compliant VPN application and server that we use for all Public Safety mobile clients for Rockwall PD, Heath DPS, and Fate DPS. The course would provide valuable training on how to better manage this system and improve its efficiency. There are also additional analytics and network access control features that could enhance the reliability and security of our network.</p> <p>CITY MANAGER'S COMMENTS: Net motion training is Disapproved</p>

Notes:	Travel Costs for Tyler Connect
<p>Requesting \$4,000 for travel expenses associated with The Tyler Connect Conference. Tyler Connect is the annual technology conference hosted by Tyler Technologies. Tyler Connect 2020 will be held April 26-29 in Orlando, FL. Every Tyler Connect conference provides over 100 New World Public Safety specific training sessions. These sessions offer valuable training for our CAD, Records, Mobile, and GIS applications. There are also opportunities to learn about new software functions and features that may help us to improve our business processes. Tyler Connect also provides us the opportunity to network with other agencies across the country and learn common solutions to common problems.</p>

107 SALARIES & WAGES-LABOR	701,927	754,650	774,650	967,600

Notes: Park Maintenance Workers

This request is to add four (4) Park Maintenance Workers. The City's park assets need over 41,000 hours of actual hands on maintenance tasks. We have approximately 30,000 available, which indicates a labor deficit of 5 to 6 FTE's. This is based on an average of 1,680 hours worked annually by each of the 18 park maintenance personnel. This does not include the Park Superintendent's contribution to field work.

\$42,543 Salary and Benefits per employee

Overage due to major repairs needed in the off-season to bring mowing equipment back into Original Equipment Manufacturer specifications in order to be ready for mowing season.

Mower Maintenance
 \$20,500 - This request is to provide additional funds for preventive maintenance to repair all mowers to the Original Equipment Manufacturers (OEM) specification in each off-season. When repairs are made during the growing season, staff must make quick repairs themselves in order to keep up with grass growth. This often results in repairs that are not consistent with OEM specifications that are unsustainable and can cause even more expensive repairs or unsafe operating conditions.

Because the proper OEM repair services are not local, down time must include transportation to and from the manufacturers mechanic facility and often results in the need for a short term mower rental to keep up with work load.

CITY MANAGER'S COMMENTS: Disapproved

Notes:	Irrigation Central Control
<p>\$12,000 - Cellular communication plan. The current central irrigation control system is radio controlled and was put in place in 2006/2007. This system has since been sold by the parent company, Toro. Service and parts have become problematic and unreliable. Staff has been gradually replacing these units as they fail with a new system, Weathermatic Smartlink. These units are cheaper and simpler to maintain. Each park site can be controlled from a smart phone or tablet device. Each unit communicates via cell signal and is more reliable than the current radio communication method. There are a total of 40 units city-wide. 20 units have been replaced utilizing existing supply account funds.</p>	
<p>\$1,000 - Contingent on laptop approval, this request is for the monthly communication plan for two laptops.</p>

621 FIELD MACHINERY & EQUIPMENT	113,941	89,000	89,000	30,750

Notes:	Ballfield Maintenance Equipment
<p>Ballfield usage in the past two years has been near capacity for games, practices and tournaments and utilizes all 13 city baseball/softball fields. In order to keep up with this demand two separate ballfield equipment groups are needed. One for maintaining Tuttle and one for Myers and Yellowjacket. This allows staff the ability to perform daily field prep simultaneously and better handle response to rain events and tournament prep.</p> <p>\$15,750 - An additional infield groomer</p> <p>\$15,000 - Two additional trailers are needed. One is a high-side dump trailer for soils, aggregate and rock. The other trailer is a flat bed trailer to haul project crew tools and equipment.</p> <p>\$31,000 - Top dresser. This equipment would be utilized to apply over 40 tons of clay and infield conditioner each year on 13 infields with two to three applications annually. Infield conditioner is necessary to maintain a safe and playable infield and for proper drainage. This calcine clay material has to be spread evenly across the entire infield. It takes each application about one week to apply the material manually. The Topdresser would allow it to be completed in one day. The topdresser will also be used to repair granite gravel trails, level low spots in turf areas for drainage and safety.</p> <p>\$45,000 - Heavy duty utility vehicle. An additional utility vehicle is needed to perform daily maintenance and major renovations. The need for a heavy duty accommodates the weight of the topdresser load in the bed of vehicle. This vehicle would also be utilized during special events.</p> <p>CITY MANAGER'S COMMENTS: Groomer and Trailers are Approved from General Fund Reserves. Topdresser and Utility vehicle are Disapproved.</p>	

623 VEHICLES	-	79,000	79,000	84,000
--------------	---	--------	--------	--------

Notes:	Additional Maintenance Trucks
<p>\$42,000 - Additional 3/4 ton pick up truck for the second ballfield maintenance equipment group. It would haul the additional infield groomer and utility vehicle.</p> <p>\$42,000 - Contingent on approval of additional maintenance workers, they would need a 3/4 ton crew cab truck.</p> <p>\$48,000 - Additional truck with Tommy Lift Gate for litter control. We provide 7 days a week service for litter control, restrooms and pavilion cleaning for all parks, Harbor and downtown. The work load has become more than one person can keep up with.</p> <p>CITY MANAGER'S COMMENTS: Trucks for ballfield crew and new maintenance crew are Approved from General Fund Reserves. Litter control truck is Disapproved.</p>

633 INFRASTRUCTURE IMPROVEMENTS	57,744	49,500	49,500	75,000

Notes:	Asset Maintenance and Upgrades
<p>\$25,000 - Trail extension from Emerald Bay Drive cul-de-sac into the neighborhood park. Several requests from the neighborhood have asked for an ADA accessible trail to connect the sidewalk to the trail system in the park.</p> <p>\$50,000 - Estimated cost to provide power and lights inside the pickle ball court canopy.</p> <p>\$430,000 - Myers Park east parking lot - remove and replace. This asphalt parking lot is in dire need of replacement due to shearing and failing sub-base. This request also includes adding approximately 25 new spaces. Parking over flows onto grass areas and fire lanes on a regular basis from daily park users.</p> <p>CITY MANAGER'S COMMENTS: Approved from General Fund Reserves. Parking lot is Disapproved</p>

Notes:	Inspector/Coordinator
<p>The position would provide stormwater system inspections and coordinate the maintenance activities for our stormwater system operations. The City of Rockwall is permitted as a small Municipal Separate Storm Sewer System (MS4) and operates under TPDES General Permit No. TXR040278. The addition of this position allows us to implement a storm water system inspection and maintenance plan and develop programs, which follow the established Best Management Practices for Pollution Prevention and Good Housekeeping for our Municipal Operations. The position would also oversee and coordinate the proposed Closed Circuit Television Inspections – (CCTV) and the proposed Storm Sewer Cleaning and Repair Program which would be performed by outside contract services.</p> <p>The position would also provide quality control inspections and oversight for the various outside contractors working for the streets division.</p> <p>\$59,930 Salary and Benefits 5,200 Equipment 33,000 Pickup</p> <p>CITY MANAGER'S COMMENTS: Disapproved</p>

Notes:	New Programs
<p>\$153,500 - Annual Storm Sewer Camera Inspection Program – Year 1 Closed Circuit Television Inspections – (CCTV) to determine the condition of storm sewer lines, the interior of the pipes are inspected using (CCTV). The camera unit is navigated between the inlet structures and manholes.</p> <p>\$76,800 - Annual Storm Sewer Cleaning and Repair Program – Year 1 The ACME Utility rate for Vactor Truck Cleaning is \$195 per hr. for 4-hr minimum. . We are budgeting for 30 full days (6-weeks) of pipe cleaning at \$1,560 per day/\$7,800 per week at a projected cleaning cost of \$46,800. It will also be necessary to budget funds for any miscellaneous storm sewer system repairs that may be discovered during the camera inspection process. Budget \$30,000 for miscellaneous storm sewer repairs.</p> <p>CITY MANAGER'S COMMENTS: Disapproved</p>	

Notes:	Service Maintenance Contracts
<p>\$25,000 - Miscellaneous Right-of-Way Maintenance These funds will be used for the maintenance of right-of-ways. The maintenance will consist of the trimming of low and/or over-hanging tree limbs and shrubs including miscellaneous vegetation encroaching the roadways.</p> <p>\$21,335 - Traffic Signal Maintenance - Maintain (4) City Owned Traffic Signals</p> <p>\$6,240 - Wi-Fi Hot Spot Connections. (13 connections)</p> <p>\$5,700 - SCADA System – Technical Support Services to provide a field service engineer to cover service calls related to the yearly maintenance, troubleshooting and programming for the school light SCADA system.</p> <p>\$4,872 - SCADA System – Cell Charges for 31 School Zone Beacon Modems.</p> <p>\$4,000 - SCADA System – Miscellaneous - Maintenance Supplies and Parts for the maintenance and repair of the school light SCADA System.</p> <p>\$13,175 - SCADA System – Series 102 System Operational Control Stations to replace existing outdated and obsolete control systems for 31 modems by upgrading the system.</p> <p>\$4,500 - Cloud Access Network “Subscription Fee” for Pole Mounted Radar Signs.</p> <p>\$15,000 - Cityworks Maintenance contract for Public Works is \$45,000. This amount is to be budget shared in a 3-way split by the Water, Wastewater and Streets Divisions of the Public Works Department.</p> <p>CITY MANAGER'S COMMENTS: Approved</p>

Notes:	Replacement Vehicles
<p>\$195,000 - Replace - 2006 Ford F- 650 Brush Truck – (Unit ST-144-06) Age: 13 Years This truck serves as a multi-use vehicle. The truck is considered a daily use vehicle and is deployed primarily by the Streets and Parks Divisions. In emergency situations, such as severe weather/wind/ice/events, this vehicle is key to our debris and brush removal operations. The brush grapple attachment would eliminate the need for a “tag along” loader to follow the truck since it is self-contained/self-loading unit.</p> <p>Streets Use - Brush and debris removal for general right-of-way maintenance, emergency response for the cleanup of brush and debris caused by storm events.</p> <p>Parks Use - Park maintenance, landscape maintenance, tree pruning and removal, along with emergency cleanup of brush and debris caused by storm damage at various park locations.</p> <p>Proposed Replacement Unit – 2019/2020 Ford F-750 Chassis with 16-18 foot open top tilt bed with side panels and rear swinging doors equipped with brush grapple.</p>	
<p>\$115,000 - Replace - 2002 Ford F-650 Dump Truck - Unit ST-158-02 Age: 17 Years This truck is vital to day to day operations. It is used for street sanding, transporting dirt, debris and hauling equipment to job sites. It has had several costly mechanical issues within the last four years that included two broken drive lines along with the clutch and pressure plate assembly. The PTO is not working properly, electrical issues etc.</p> <p>Proposed Replacement unit: 2019-2020 6-8 yard dump body w/6 yard sand spreader, underbody tool box pass side, LED light bar, traffic advisor, 4-way strobe kit, etc.</p>	
<p>\$57,500 - Replace - 2009 Ford F-250 Ex Cab with Utility Bed – (Unit ST-150- 09) Age: 9 Years Mileage: 97,500 Condition: Fair/Poor This vehicle is used for daily sign maintenance operations, school light maintenance, traffic signals, special event support and general operations activities. The truck has had several mechanical issues within the last 3 years, fuel injectors, tune up, breaks, a/c unit etc. This unit also has high mileage and meets or exceeds the replacement criteria.</p> <p>Proposed Replacement Unit – 2019/2020 Chevy C-3500 HD 4x2 Double Cab with 3-k lb remote control RKI crane needed for sign pole operations, headache rack, compressor/generator, safety lights, traffic advisor, etc.</p> <p>CITY MANAGER'S COMMENTS: Brush truck is Approved from General Fund Reserves, remaining trucks are Disapproved</p>

City of Rockwall
The New Horizon

MEMORANDUM

TO: Rick Crowley, City Manager
FROM: Mary Smith, Assistant City Manager
DATE: August 19, 2019
SUBJECT: Water / Wastewater Rates

North Texas Municipal Water District is still finalizing the increase for treated water for 2019. Initial projections supplied by the District show the increase to be about 2.4% from the current 2.92 to 2.99 per thousand gallons of treated water. This is the second year for the new budget methodology put into effect by the District which has allowed rates to increase more slowly than previously projected. The lowered projections were used when our rate study was completed last December.

The charges for Wastewater treatment by the District is increasing from the original 2019 budget by larger percentages. Specifically 15% for the regional interceptor line, 8.5% for the Regional treatment plant, and 19% for the Squabble Creek Treatment plant. Design work continues on a parallel line to the Mesquite treatment plant with debt expected to be issued by the NTMWD in FY2020

The City has two primary criteria when setting rates. The City's policy is to maintain a 60-day working capital (reserves) balance. Historically we have set rates and budgets based on periods of normal weather and consumption, not the extremes that can occur. Unfortunately, the weather and consumption patterns have been anything but normal for the past decade. After setting a new minimum demand last year, which was 25% higher than our last high set in 2012, we only sold 88% of our minimum volume this year. The water year runs from August through July each year.

The City raised rates effective January 1, 2019 following the comprehensive rate study which was completed last Fall. The decision was made to attempt to better align water rates to cover water costs and sewer rates to cover sewer costs. This will result in significantly lower rate increases for water and higher rate increases for sewer over the next few years. We can moderate slightly from the rate model due to the lower member rate being adopted by the District so the revised water rate increase proposed for January 2020 will be 3% but the sewer rate will need to be increased by the 18% that was previously projected. The percentages can be a bit misleading since the rate structures are so different. The average residential water bill

will increase less than \$3.00 and the average residential sewer bill will increase by about \$6.00 and will continue to be calculated using a winter averaging formula.

Wholesale Customers

Our wholesale customer rates are determined in a separate study that was completed in 2018 as well. These rates are designed to completely cover our cost of providing wholesale water. Blackland and RCH Water Supply Corporations will be subject to a rate increase based on those study findings. Those rates will increase about 14% for January 1. Extensions of the wholesale contracts with Blackland and RCH are being negotiated at this time. Blackland continues to work toward becoming a direct customer of the NTMWD although the process has taken longer than originally planned and the extension will acknowledge their continuing efforts.

The City of Heath's contract with Rockwall provides for rate increases as NTMWD adjusts the District's rate to member cities and includes a minimum take provision which was implemented in FY2017. Heath set a new minimum in 2018 as well. Final reports on their consumption have not been evaluated at this time.

382 METER SUPPLIES	130,663	190,000	290,000	350,000

Notes:	Meter Changeouts
<p>We began an intensive effort to change out manual read meters to the radio read meter in FY18. We changed just over 1,200 meters with in-house resources this winter. Many of the meters that were changed out in that effort were dead. While the line item needs amended, we believe the cost of each new meter was covered in the subsequent billings since they were changed. We need to continue a program to get the meters switched over to the radio read version which provides a much greater level of information for our residents when they have higher bills. It is difficult to explain a higher bill to a customer but having the hourly and daily logs makes it much easier for the customer to pinpoint the time of day when a spike is occurring.</p> <p>CITY MANAGER'S COMMENTS: Approved</p>

\$83,350 Grand LX - Valve Maintenance Trailer	
<p>When valves are not accessible or operable, crews have to close more valves to isolate a line to make a repair which requires more time for the crews to isolate lines. Some of the impacts of not having a good valve exercise program are more customers without service, the buildup of tuberculation, and the potential for increased property damage.</p> <p>This machine is needed to ensure valves are operable and accessible. With the combination valve and hydro-excavation machine, the Water Division of Public Works would start a valve exercise program. Having such a program would allow the division to identify problem valves, collect information on the valves (including GPS) and locate missing valves.</p> <p>The Grand LX VMT combines all the necessary features required for valve exercising maintenance with a small hydro-excavation unit to clean valve stacks and a valve turning machine.</p> <p>CITY MANAGER'S COMMENTS: Disapproved</p>

Notes:	Demolition of Boydston Water Tower
<p>The Boydston Water Tower is no longer in use as a storage component of our water system. It continues to serve as the home for multiple cell antennas though. We will need to use Malouf Engineering to study the structural tower and design any hardening needed to move the antennas from the water tower to the structural tower. An engineering firm will need to plan the demolition of the water tower after the antennas are moved. We will complete the study and design by June 2020 and determine if funds are available at that time to proceed with the demolition. Council will be asked to consider a budget amendment at that time if funding is available.</p> <p>CITY MANAGER'S COMMENTS: Approved</p>

The City of Heath and Rockwall have shared a 4 million gallon ground storage tank for many years. A couple of years ago Heath needed more ground storage and it was determined that it was more cost effective for them to build a new tank and Rockwall assume all of the storage in the existing tank. NTMWD issued debt in 1995 to build the storage tank for Rockwall and Heath and we have paid 66.67% of the debt service. A valuation study was completed and in addition to assuming the remaining debt service payments as well as reimbursing Heath \$429,500 for the value of the tank. This allowed Rockwall to postpone building a new tank for several years.

623 VEHICLES	156,253	-	-	401,100

Notes:	Vacuum Truck
---------------	--------------

\$401,100 Vacuum Truck V 390/1000 L H A –P

In 2016 the Wastewater Division purchased its first combination jet/vac truck. The jet/vac truck was purchased to clean and remove debris from sewer lines while the camera unit videos the lines. The jet/vac truck is also used for removal of debris from storm drains, outfalls, and lift stations.

Another use is hydro-excavating to make repairs on water, sewer, storm sewer lines, and force mains where other utilities are buried too close for typical excavation or to locate lines with very little disturbance to the ground surface, unlike trenching equipment. Because of the numerous tasks this piece of equipment can accomplish while saving time and labor, it has become a struggle to maintain the footage specified in the City’s CMOM program where a certain number of feet are to be cleaned and videoed yearly.

Over 50 percent of the time the jet/vac truck performs tasks unrelated to the sewer assessment program. This year, the Wastewater Division will need to preparatory clean 134,198 feet of sewer lines. If the City were to contract the preparatory clean of the pipes, the contract price is \$2.39 a foot at the cost of \$320,733.22.

Currently, the Wastewater Division has a 2002 jet truck for service calls when unstopping sewer lines. The jet truck is not equipped with a vac unit to remove debris that has broken loose from inside the sewer lines. The crew has to use a catch basket or a 2001 vacuum trailer to remove the debris from the system. When the vac trailer is used, it requires another truck and crew to operate. Neither the jet truck or vac trailer is designed for hydro-excavation.

If this new Vacuum Truck V 390/1000 L H A –P is approved, the Wastewater Division will decommission the 17-year-old jet truck and 18-year-old vac trailer. These two pieces of equipment are prone to breaking down in a critical situation which requires the cleaning and camera crew to halt their operations and assist with the current combination vac/jet unit purchased in 2015 – 2016 budget year.

SUPPLIES

341	CONSTRUCTION & REPAIR SUPPLIES	-	-	-	141,000
-----	--------------------------------	---	---	---	---------

Notes:	Construction Projects
<p>\$25,000 - Replace three old scoreboards at Tuttle. These are the original scoreboards and the manufacturer no longer provides support or parts for these units.</p>	
<p>\$7,000 - Siphon for Phelps Lake. Since the original outfall was sleeved from a 12" to an 8" drain park assets, trails and adjacent property owner's driveway remains under water for up to 60 days at a time. The PVC siphon was recommended and preliminarily approved by the NRCS that controls Phelps Lake. The siphon is intended to be installed above ground and temporarily used in times of high water to expedite drainage to restore normal lake levels.</p>	
<p>\$10,000 - Poured in Place (PIP) rubber surfacing repair at Yellowjacket Park. the PIP safety surface is worn under certain play elements and needs to be replaced in order to maintain safety standards for fall zones.</p>	
<p>\$39,000 - Replace the shade canopy over the playground at Tuttle Ballfields. This canopy provides shade and foul ball protection for the playground between fields 2 and 4. It is nearly 20 years old and has reached the end of its useful life.</p>	
<p>\$60,000 - Remove and replace approximately 400' of concrete trail in Myers Park along the west side of the pond trail loop. It has large cracks and the cross slope no longer meets ADA requirements.</p>	
<p>CITY MANAGER'S COMMENTS: Approved</p>

Notes:

HHW Fee Offset

For many years the City received a recycling rebate from our solid waste provider which was initially set by ton and later by house count. The current contract ended the recycling rebate several years ago. The rebates were assigned to this fund and used for promotion of recycling and tree transplanting - but not much has been spent in the last few years. With the addition of the new porch pickup for household hazardous waste we propose to repurpose these remaining funds to assist with the transition of rates for this service. Residents are currently charged 70cents per month and the charge from the HHW provider is 99cents per month. The remaining balance in this fund could be used to offset that price difference for 2 more years. We would be giving the rebates back to the residents rather than holding them for a future as yet unknown purpose.

<p>CITY MANAGER'S COMMENTS: Approved</p>	

Notes:	Telephone Redundant Path
<p>There have been 4 total telecommunication outages in the last calendar year which have affected the non-emergency administrative phone lines at the Police Department and to all other city facilities. The ability to maintain effective communications during critical incidents whether man-made or natural is paramount to the mission of the Rockwall Police Department Communications Center. Telephone service interruption increases the potential to miss critical emergency phone calls being transferred from other cities using the Dispatch non-emergency administration lines. This building currently has one AT&T line providing service to the entire City telephone system. This request is to add a secondary AT&T path into the City's phone system to provide real-time redundancy in the event the building loses the primary connection.</p>

City of Rockwall

**CITY OF ROCKWALL, TEXAS
MEMORANDUM**

TO: Rick Crowley, City Manager
**FROM: Cheryl Dunlop
Director, Administrative Services**
DATE: August 15, 2019
SUBJECT: City's Health & Welfare Programs

General Overview

The City of Rockwall has partnered with **Holmes Murphy** since January 2012 for broker and consultant services to ensure the City stays informed on local healthcare trends, vendor alternatives, expected cost projections, Healthcare Reform and other legal and legislative topics that impact the City's health plan. In January of 2017, the City changed third-party administrators for administration of the health plan from Group & Pension Administrators, Inc. (GPA) to **Cigna**. The results show that this was a prudent decision due to improved network discounts and medical management, improved Pharmacy contract, and lower administrative fees.

Health Care Cost Summary

As the chart below indicates, the City had experienced a continued rise in healthcare claims and costs since the 2014 plan year, but overall claims costs have decreased since the move to Cigna due to the above improvements. Based on paid claims through June 2019, it is projected that the 2019 claim expense will be very similar to the 2018 expense.

History of Claims Cost:

Cal Year	Claims Cost	Annual Cost PEPY	# of EEs @ YR End
2012	\$2,402,215	\$9,053	245
2013	\$1,901,422	\$7,989	238
2014	\$2,425,875	\$10,279	236
2015	\$2,914,258	\$12,143	240
2016	\$2,889,527	\$12,040	240
2017	\$2,143,055	\$8,607	249
2018	\$2,000,568	\$8,099	247

Prescription Benefits Plan

The chart below shows that the City of Rockwall's prescription claims increased significantly in 2016. However, based on paid claims data for 2018, costs have decreased due to improved discounts, rebates, and administrative fees. While the results are promising, the City will need to continue to review both plan and formulary changes to drive improved decision-making by employees to choose lowest cost drugs where available.

PLAN YEAR	RX EXPENSE PAID	% INCREASE/DECREASE
2012	\$491,122	26.0%
2013	\$513,652	4.6%
2014	\$624,073	21.5%
2015	\$594,363	-5%
2016	\$741,688	24.8%
2017	\$662,776	-10.6%
2018	\$662,906	0.0%

Note: Claims cost does not include Admin Fees.

Administrative Fees

The City also pays administrative fees to Cigna to administer the Medical, Pharmacy, and Dental benefits. Additionally, the City purchases Stop Loss Insurance to protect it against large claims, which are included in the below administrative fees.

For 2019, the estimated fees paid annually to Cigna for these services are:

- *Cigna Administrative fees* - \$499,760

Healthcare Reform

The City has historically paid additional fees related to the *Affordable Care Act (Healthcare Reform)*.

For 2018, the fees included:

- *Patient Centered Outcomes Research Institute (PCORI) Fee* - \$1,470 annually.

These fees were budgeted in the 2018 funding rates but paid in July of 2019.

The PCORI fee will be ending in 2020. There may be other factors of healthcare reform that may impact the City going forward such as the **Cadillac Tax (2022)**, if this is implemented.

Pre-65 Retiree Insurance

In May of last year, Pre-65 Retiree Health Insurance benefits were offered to eligible employees. Since that time, only a few employees have retired and elected coverage through TMLIEBP. This may increase as more tenured employees begin to consider retiring before age 65. TMLIEBP typically announces the new rates for this group in September. However, we don't expect a significant increase in this expense since we have very low participation in the group plan.

MEMORANDUM

TO: Rick Crowley, City Manager

FROM: Cheryl Dunlop
Director, Administrative Services

CC: Mary Smith, Asst. City Manager

DATE: August 12, 2019

SUBJECT: Employee Safety Program

In 1990, the City issued Certificates of Obligation for \$2,000,000 to fund a self-insured workers' compensation program. The bond issue was paid off in August 2000. Claims processing is managed by the Texas Municipal League with the City paying deductible expenses up to \$200,000 per occurrence, with an aggregate exposure of \$600,000.

The City's self-funded Risk Management Program includes many components that have worked well together over the past several years to ensure and promote a safe work environment for all our employees. These include: *job placement assessments, drug/alcohol testing, job evaluation & site assessments, specific job safety training, incident investigation and reporting, workplace inspections, risk assessments and analysis* conducted by TMLIRP.

The HR staff reviews the claims data to identify potential trends in the following areas: *types of injuries, injuries occurring within certain job classifications, injuries resulting from types of equipment or specific job tasks, severity of claims, number of "days lost", and costs*. In addition, employees are encouraged to report *incidents without injuries* in order to assist in tracking and identifying potential safety hazards that can be corrected pro-actively.

The *reportable incidents* have increased slightly, the *number of days away from work* and the *days on restricted or light duty* have decreased. The *medical claims cost* to-date is significantly lower than last year, and have decreased the previous two years from FY '15- '16.

This year's data fully supports the recommendation to fund the safety incentive to employees.

Workers' Compensation Claims Activity by Fiscal Year

Fiscal Year	Total # of EE Receiving A Pay Check	Reportable Incidents	Non Reportable Incidents	Total Days Away From Work	Cost of Total Days Away From Work	Total Days Restricted Duty (Light/Modified)	Medical Claims Cost	Expenses Paid by TML	Property Damage	TOTAL	Recovered Amount	Total Loss for Rockwall
15/16	300	20	33	292	\$78,639	337	\$251,376	\$28,771	\$20,467	\$496,105	\$20,691	\$468,391
16/17	302	28	34	29	\$ 9,675	216	\$ 49,051	\$ 3,112	\$ 0	\$ 66,572	\$ 4,772	\$ 58,425
17/18	302	23	54	87	\$18,582	290	\$ 40,600	\$ 3,384	\$ 0	\$ 73,578	\$16,434	\$ 57,144
18/19	303	27	32	50	\$16,099	144	\$16,349	\$ 0	\$ 0	\$ 28,316	\$10,373	\$ 10,106

The City has achieved great results over the majority of the past 25 years in managing claim costs, though some of these years have presented challenges. With each year's claims and administration, the fund balance has been declining. We had a difficult year in FY '15-'16, primarily due to one claim. Even with very good claims activity the past three fiscal years, we expect the fund balance to continue to deplete. We anticipate we will need to increase the General Fund and Water/Sewer transfers over the next several years in order to build a reserve again.
