Re: Autumn Leaves Development
Letter of Concurrence

Dear Mr. Persful,

I am the engineer in charge of certifying the construction observation for the above referenced project. Under my supervision, representatives of Kimley-Horn and Associates, Inc, qualified by education and experience to observe and report on paving and drainage construction, made an on-site observation on 10/7/2011 for the purpose of endeavoring to provide a greater degree of confidence of the Contractor's conformance to plans and specifications.

Based on this observation of the existing paving and detention pond grading, storm water appears to flow in the general drainage patterns as indicated on the record plans. Based on this observation and survey data collected on 9/14/2011 of the existing site improvements, the final grading appears to comply with the City approved plans and details.

In recognition of the above, I affix my seal beside my signature at the bottom of this letter. This letter neither warrants nor implies warranty of the contractor's materials or workmanship.

Sincerely,

KIMLEY-HORN AND ASSOCIATES, INC.

Hillary R. VonAhsen
