(A) PURPOSE

The purpose of this PD Zoning change is to allow for an area located at the southeastern portion of the property to be developed as a high-end custom home phase, with minimum one-acre single family residential lots. It is the desire of the owner to retain all the other non-conflicting entitlements on the property per the existing PD requirements and development standards with exceptions that will be noted throughout this document. The developer recognizes and accepts that the acreage utilized for this proposed custom phase will result in a loss of development density, from 507 single family homes to approximately 428 Single family homes. The owner requests the right and flexibility to replace smaller lot types with the 0.75-acre lot type throughout future phases of the development, without the need to rezone the Planned Development District as long as the general intent and layout of the approved revised concept plan is followed and the total number of lots does not increase.

To facilitate review of the proposed PD revisions, sections and development standards that are to be revised as a part of this re-zoning request will be highlighted in yellow throughout the document. All proposed revisions have been incorporated into the attached revised concept plan.

The Discovery Lakes Subdivision is located at the northeast corner of the intersection of SH-276 and Rochell Road. The *Subject Property* is a short walk or bike ride from the Rockwall Technology Park. The Discovery Lakes Subdivision will be a master planned residential neighborhood that will incorporate two (2) lakes, several acres of open space and ~2.6-miles of hiking/jogging/biking trails. The master plan calls for 428 single-family homes. There will be several view corridors strategically placed within the subdivision along with *front loaded* lots to provide for the enjoyment of the open space. A boulevard with 85-feet of right-of-way will connect SH-276 and be constructed up to the first round-about of the one (1) acre lots. The boulevard will have a 14-foot landscape median and a 25-foot travel lane on each side of the street. The residential streets will be 29-feet back-to-back, with a 10½-foot parkway on each side for a total of 50-feet of right-of-way. A *Community Center* with a pool will be provided to add increased amenity for the subdivision. Commencement of the Community Center and pool will take place at or before the final platting of the 201st residential lot or with the addition of additional *Type 'A'* lots. Additionally, the proposed development will incorporate nine (9) acres of commercial space that will be located at the hard corner of SH-276 and Rochell Road. This area will allow for neighborhood service types of uses and eating establishments. A maximum of one (1) hotel planned to service the needs of the subdivision and the Rockwall Technology Park. A 55-acre area adjacent to the northern lake will be dedicated as public parkland to serve Park District No. 31. The Discovery Lakes Subdivision will be a benefit to the community, allowing citizens of all ages the opportunity to live, work, and play in a connected master planned community.
