13-February 2026

Dear Planning and Zoning Department,

We are writing to formally request approval to construct a metal fence with cedar posts on our property located at;

1223 Skylar Dr. Rockwall, Texas 75032

The proposed fence design combines a metal and cedar panel system. We are requesting this design for several practical reasons.

First, the metal and cedar both provide long-term durability, structural strength, and minimal maintenance compared with traditional wood fencing. Both materials are resistant to rotting, insect damage and weather-related deterioration, making them a stable and sustainable solution over time.

Second, our property faces a very busy street, and this design is necessary for privacy and comfort. The metal components block out vehicle headlights at night while also providing full backyard privacy at all times throughout the day and evening.

Additionally, we have large trees along the fence. Root growth and moisture make a fully wooden fence difficult to maintain and prone to shifting and repairs. A metal and cedar design is better suited for these conditions.

Our intention is to ensure the fence is attractive, while also providing a practical and responsible long-term improvement to our property.

We appreciate your time and consideration of this request.

Sincerely,

William Watson
