MEMORANDUM

TO: Dub Douphrate, P.E.
FROM: Dan C. Boutwell, AICP
SUBJECT: P&Z 93-51-Z/PP (The Woods)
DATE: January 7, 1994

Description:

The applicant proposes to: (1) rezone a parcel of land from "A"-Agricultural to "PD"-Planned Development for residential purposes and (2) present a preliminary plat for a 23 acre tract of land.

The applicant has indicated that the addition will be comprised of 42 residential lots. These lots are proposed to range in size from 11,800 sq.ft to 41,000 sq.ft. The dwelling units will be required to have a minimum size of 2,500 sq.ft. The applicant proposes that all other area restrictions shall meet the SF10 zoning district requirements.

Zoning Comments:

1. A portion of the site, adjacent to F.M. 740, is located within the Scenic Overlay Zone. However this proposed development is in compliance the the requirements of the Scenic Overlay Zone.
2. The zoning request is in compliance with the Comprehensive Land Use Plan, which indicates that low density residential land use is planned for this area. In addition, SF16 zoning has occurred to the north of the site, which also is consistent with the land use as proposed by this application.
3. Although the requested use appears to be compatible with existing land uses and consistent with future land use plans, the submitted material should be augmented with additional descriptive information regarding the PD.
 - a. The applicant should clearly indicate the character of the proposed roadways, whether they are to be private or public. The location of all security gates, barriers, or other structures should be shown.
 - b. Screening, landscaping, and/or decorative walls should be described and shown on the site plan.

Memorandum

P&Z 93-51-Z/PP (The Woods)

Page 2 of 2

- c. The applicant should attach documentation indicating the area requirements (sq.ft. of lot, sq.ft. of dwelling units, building set-backs, side set-backs, rear set-backs, height of structures, etc.)
- 4. As a condition of the PD, wording should be included that requires that the building lines be located on the lots such that a minimum width of 50 feet, measured at the building line, is provided on each lot, especially cul-de-sac lots.

Platting Comments:

- 5. Shadydale Lane must be shown on the plat. In addition, right-of-way for Shadydale Lane, adjacent to lots 16 and 17, must be dedicated as deemed necessary by the City.
- 6. All front building lines and proposed utility easements should be indicated on the plat.
- 7. The applicant has indicated a fire lane between lots 16 and 17. This fire lane should be shown as an Emergency Access Easement. In addition, the characteristics of this fire lane shall be subject to the approval of the Fire Marshall

MEMORANDUM

January 13, 1994

TO: Mayor and Councilmembers

FROM: Julie Couch, City Manager

RE: Recommendations of the Planning and Zoning Commission Regarding Planning and Zoning Items

Following is a discussion of the recommendations of the Commission on the items that are to be considered on Monday night.

V. B.

The Commission unanimously recommended approval of the application with the conditions as recommended by staff, with the exception of those that were addressed at the meeting. The applicant has indicated that the streets will be public streets.

There was discussion at the meeting regarding the issue of possible deed restrictions that may apply to this property. An adjacent owner has indicated that the property within 500 feet of their property is required to be constructed with lots comparable in size to the lots on Shadydale. The applicant has indicated that there are no deed restrictions on his property, that the restrictions in question applied to the property on the north side of Shadydale. It was pointed out to the Commission that the City does not enforce deed restrictions. The Commission did not include any reference in their motion in regard to the deed restriction issue.

The conditions that apply are as follows:

1. That the screening, landscaping, and/or decorative walks be described on the site plan.
2. That the applicant include the area requirements on the site plan.
3. That the building lines not be less than 50 feet in width.
4. That Shadydale be shown on the plat.
5. That the front building lines and proposed utility easements be indicated on the plat.

6. That the fire lane between lots 16 and 17 be shown as an emergency access easement and shall be subject to approval by the Fire Marshal.

Attached is a copy of the proposed ordinance.

MEMORANDUM

TO: Dub Douphrate, P.E.
FROM: Dan C. Boutwell, AICP
SUBJECT: P&Z 93-51-Z/PP (The Woods)
DATE: January 7, 1994

Description:

The applicant proposes to: (1) rezone a parcel of land from "A"-Agricultural to "PD"-Planned Development for residential purposes and (2) present a preliminary plat for a 23 acre tract of land.

The applicant has indicated that the addition will be comprised of 42 residential lots. These lots are proposed to range in size from 11,800 sq.ft to 41,000 sq.ft. The dwelling units will be required to have a minimum size of 2,500 sq.ft. The applicant proposes that all other area restrictions shall meet the SF10 zoning district requirements.

Zoning Comments:

1. A portion of the site, adjacent to F.M. 740, is located within the Scenic Overlay Zone. However this proposed development is in compliance the the requirements of the Scenic Overlay Zone.
2. The zoning request is in compliance with the Comprehensive Land Use Plan, which indicates that low density residential land use is planned for this area. In addition, SF16 zoning has occurred to the north of the site, which also is consistent with the land use as proposed by this application.
3. Although the requested use appears to be compatible with existing land uses and consistent with future land use plans, the submitted material should be augmented with additional descriptive information regarding the PD.
 - a. The applicant should clearly indicate the character of the proposed roadways, whether they are to be private or public. The location of all security gates, barriers, or other structures should be shown.
 - b. Screening, landscaping, and/or decorative walls should be described and shown on the site plan.

- c. The applicant should attach documentation indicating the area requirements (sq.ft. of lot, sq.ft. of dwelling units, building set-backs, side set-backs, rear set-backs, height of structures, etc.)
4. As a condition of the PD, wording should be included that requires that the building lines be located on the lots such that a minimum width of 50 feet, measured at the building line, is provided on each lot, especially cul-de-sac lots.

Platting Comments:

5. Shadydale Lane must be shown on the plat. In addition, right-of-way for Shadydale Lane, adjacent to lots 16 and 17, must be dedicated as deemed necessary by the City.
6. All front building lines and proposed utility easements should be indicated on the plat.
7. The applicant has indicated a fire lane between lots 16 and 17. This fire lane should be shown as an Emergency Access Easement. In addition, the characteristics of this fire lane shall be subject to the approval of the Fire Marshall
