RE: W&A #93-049; PROPOSED MIRA VISTA ADDITION;
Rockwall, Texas

Dear Mr. Douphrate:

Please find attached the information listed below for submittal of a Preliminary Plat on proposed Mira Vista Addition.

1. One (1) Plat application and checklist.

- 2. Twenty (20) folded copies of the Preliminary Plat drawings.
- 3. Application fee in the amount of \$535.00.

We elected to prepare a second sheet to the Preliminary Plat which demonstrates the changes to existing public right-of-ways which will be altered concurrent to the final plat. We propose to construct 25' of the full pavement width on Summerlee Drive adjacent to the development north of proposed Vista Ridge Drive. The remainder of the pavement section is proposed to be built concurrent to development of the adjacent properties west of the roadway.

Please contact us if there is any additional information that you will need for this Preliminary Plat submittal.

Very truly yours,

ULYS LANE III, P.E., R.P.L.S. Executive Vice President

LEGAL DESCRIPTION OF PROPERTY SOUGHT TO BE REZONED: (If additional space is needed for description, the description may be put on a separate sheet and attached hereto.)1 See a Hacheol.
I hereby request that the above described property be changed from its present zoning which is
PD-7, PD-18 \$ A District Classification to
PD for Commercial, Residential & Park Uses District Classification for the following reasons: (attach separate sheet if necessary)
There (are) (are not) deed restrictions pertaining to the intended use of the property.
Status of Applicant Owner X Tenant
Prospective Purchaser
I have attached hereto as Exhibit "A" a plat showing the property which is the subject of this requested zoning change and have read the following concerning the importance of my submitting to the City a sufficient legal description. Signed

Reasons for Request

The purpose of this request is to permit the development of single family homes east of the proposed extension of Summer Lee Drive, as well as a variety of commercial, retail, restaurant, lodging and entertainment uses along the Interstate 30 frontage and overlooking Lake Ray Hubbard. Also included in this request is an option to develop medium density residential uses on 14.5 acres located between the proposed extension of Summer Lee Drive and existing P.D. 22. Finally, this request also includes a 2.2 acre tract of land to be dedicated to the City of Rockwall for park purposes.

Approximately one half of the property is currently zoned PD - 7, and $1.5\pm$ acres of land is currently zoned Agriculture. The remaining 30.2 acres of this area of request encompasses the residential portions (Tracts B,C,D and E) of existing Planned Development District 18. P.D. 18 currently permits 79 zero lot line lots and 115 townhomes while P.D. 7 permits a variety of commercial uses as well as an option for 30 patio homes.

Tract 1 is being requested for "conventional" single family lots, with a minimum lot size of 10,000 square feet (80' x 125'). The Concept Plan illustrates the street and circulation patterns anticipated for this area. The density shall be a maximum of 3.7 dwelling units per acre. The development will generally be in accordance with the SF-10 regulations of the Comprehensive Zoning Ordinance, up grading of the base ordinance as reflected in the proposed Planned Development Conditions for masonry, setbacks and lot frontages. It is anticipated that approximately 100 single family lots can be platted within this $36.6 \pm$ acres.

Tract 2 is being requested for a variety of retail, commercial, entertainment and lodging uses. The specific uses and development regulations are generally the same as were established in P.D. 7 for the non-residential areas, including the option for patio homes. However, this request also includes an alternative for medium density housing with a maximum density of 14 dwelling units per acre on a maximum of $14.5 \pm$ acres, this being Tract 2a.

Medium density housing was deemed most appropriate for this tract given the severe topography, whereas the slopes average 7 to 10%. This land configuration is well suited for multi-family, as the building pads are clustered, and the open spaces and amenities can take advantage of this unique topography. If this option is pursued however, the development will be subject to stringent development regulations and the inclusion of various aesthetic amenities to assure a high quality residential development. These site development requirements include: increased landscaping, meandering sidewalks, the screening of the parking areas from the streets, strict control of the placement and design of carports, and non-offensive site lighting. The aesthetics of the buildings has also been addressed in the P.D. Conditions, whereas, the enlarged unit volumes, balconies, increased roof slopes, masonry chimney exteriors, decorative windows and off-set building facades are all requirements. These building design criteria coupled with the site design criteria will produce a high quality, aesthetically pleasing residential development.

Reasons for Request page 2

While this medium density residential (either zero lot line or multi-family) is a development option on Tract 2a, the right to develop the property for commercial, retail, entertainment and lodging uses has been retained.

Finally, Tract 3, which contains approximately 2.2 acres has been designated for dedication to the City of Rockwall for park purposes. This tract contains a creek area with significant trees, and would be most appropriate for a public, linear greenbelt system. It should ne noted that the neighboring tract(s) of land also contain portions of this wooded creek and would, if combined with Tract 3 of this P.D. create a very handsome amenity to the area.

PLANNED DEVELOPMENT DISTRICT FOR RESIDENTIAL, COMMERCIAL & PARK USES

This Planned Development District is subject to the following Special Conditions:

- 1. Planned Development District Number __ shall be developed generally in accordance with the Tract Map for said area, which is attached to and made a part hereof as Exhibit "A".
- 2. That all development of Tract 1 by this ordinance shall be in substantially in accordance with the Concept Plan, and no substantial change in the development shall be permitted except after obtaining approval of the change of such Concept Plan in the manner required for change and amendments to the Comprehensive Zoning Ordinance.
- 3. Prior to the issuance of any building permit for Tract 2 or any part thereof (i.e. Tract 2a) in Planned Development District Number _____, a Comprehensive Site Plan of the development shall be filed with the City Council of the City and shall be approved by them and filed as a part of this ordinance. Such required detailed plan shall set forth the requirements for ingress and egress to the property, public or private streets or drives, with adequate right-of-way to conform to the thoroughfare plan of the City of Rockwall, sidewalks, utilities, drainage, parking space, height of buildings, maximum lot coverage, yards and open spaces, screening walls or fences and other development and protective requirements considered necessary by the City Council to create a reasonable transition to and protection of the adjacent property. Such approval of the City Council of the detailed site plan shall be considered as an amendment to this ordinance and shall be applicable to the property involved.
- 4. The area covered by the Planned Development District Number __ shall be divided into the approximate following number of acres for the following uses, and limited to the number of dwelling units as hereafter provided to-wit:

TRACT	AREA	PROPOSED ZONING	MAXIMUM DU'S
1	36.6± ACRES	P.D. FOR SINGLE FAMILY DETACHED USES	100
2	34.9± ACRES	P.D. FOR "C" USES	
2a	(14.5± ACRES MAXIMUM)	ALLOWING FOR MEDIUM DENSITY RESIDENTIAL USES	203
3	2.2± ACRES	DEDICATION FOR PARK LAND	N/A

TRACT 1

Approximately 36.6 acres of zoning classification of Planned Development Single Family to be developed under the SF - 10 District regulations of the Comprehensive Zoning Ordinance, except as modified herein:

A. <u>Area Requirements:</u>

- 1. <u>Minimum lot frontage</u> on a public street 70 feet, measured at the front building setback line.
- 2. <u>Minimum depth of front setback</u> 25 feet.
- 3. <u>Minimum masonry exterior</u> exterior wall construction shall consist of a minimum of 75% masonry with no single elevation of any residence containing less than 50% of its exposed surface of masonry construction, as herein specified. This construction standard applies only to the first floor of the residential structure.

TRACT 2

Approximately $34.9 \pm$ acres of zoning classification of Planned Development Commercial with the permitted uses of the following:

A. Permitted Uses:

- 1. Office buildings and accessory uses
- 2. Restaurants, including accessory outdoor seating
- 3. Hotel, motel
- 4. Paved parking lots, not including commercial parking lots
- 5. Temporary on site construction offices limited to the period of construction upon approval of location and operation by the Building Official
- 6. Temporary concrete batching plant limited to the period of construction upon approval of location and operation by the Building Official
- 7. Zero Lot Line Residential as outlined in the City of Rockwall Comprehensive Zoning Ordinance under Section 2.5, not to exceed a total of 63 units (Tract 2A).

- 8. Medium Density Residential as outlined in the City of Rockwall Comprehensive Zoning Ordinance under Section 2.7, except as provided for in Section D of this ordinance, not to exceed 203 units (Tract 2A).
- 9. Marina
- 10. Private club as an accessory to a general restaurant
- 11. New buildings with over 5,000 sq. ft., or additions of over 40% of existing floor area or over 5,000 sq. ft. with combustible structural construction materials.
- 12. Buildings with exterior walls with less than 90% masonry materials excluding overhead doors or walls without street frontage
- B. No structure over 36 feet in height may be built unless specifically approved by the Planning and Zoning Commission and City Council. No structure may exceed the maximum height of 120 feet.
- C. Except as otherwise addressed all commercial development shall meet the area requirements as set forth in the Commercial Zoning District classification of the Comprehensive Zoning Ordinance.
- D. Medium Density Regulations: In the event that Tract 2A is developed for medium density housing with a maximum density of 14 dwelling units per acre (203 DU's), the following conditions shall apply:

1. <u>Site Design Criteria</u>

- a. Site landscaping along all street frontages: A minimum landscape buffer strip of 15 feet shall be provided adjacent to Summer Lee Drive, exclusive of driveways and access ways at points of ingress and egress to the lot. This landscaped area shall contain, at the minimum, one large tree and three small trees and shrubs for each 50 linear feet of this landscape buffer strip.
- b. Meandering Public Sidewalks: A 5 ft. wide, barrier-free meandering public sidewalks shall be provided along all street frontages. The sidewalk shall be designed to meander in such a way that it is located a minimum of 5 ft. from the curb line and alternately to be within 5 ft. from the back of the landscape easement. This undulation should occur approximately every 300 feet of frontage. An appropriate public access easement shall be created when the sidewalk is on private property.

- c. Parking Areas: A minimum of 25 percent of the required parking must be located within or under the main structure. The parking areas shall be screened from property lines through building placement and/or the provision of garage doors, grade separations, landscaping, berming, or other acceptable screening technique.
- d. Carports: In the event that carports are constructed, these structures shall not be visible from street frontages. All carports must be constructed of materials which are architecturally compatible with the roof and trim of the main structure. Flat built-up roofs will be allowed only when all other materials meet the intent of this paragraph (i.e., prefabricated or other metal units are not considered compatible with brick, stone, and/or wood siding and trim).
- e. Building Placement: Where three (3) or more buildings are within 100 feet of the street right-of-way and are parallel to the right-of-way having a footprint greater that four (4) units, one-third of these buildings must be turned in such that their lengths are a minimum of 45° to the street right-of-way. The remainder may be parallel to the street.
- f. Exterior Lighting: Exterior lighting fixtures, whether attached to buildings or free-standing, shall be of harmonious design. A lighting plan, showing fixtures and lighting levels, shall be submitted to the City Plan Commission for its approval at the time of site plan review. In no event shall "area" lighting, other than "cut-off" type fixtures mounted 12 ft. or less above grade, be allowed to be mounted on a building wall.

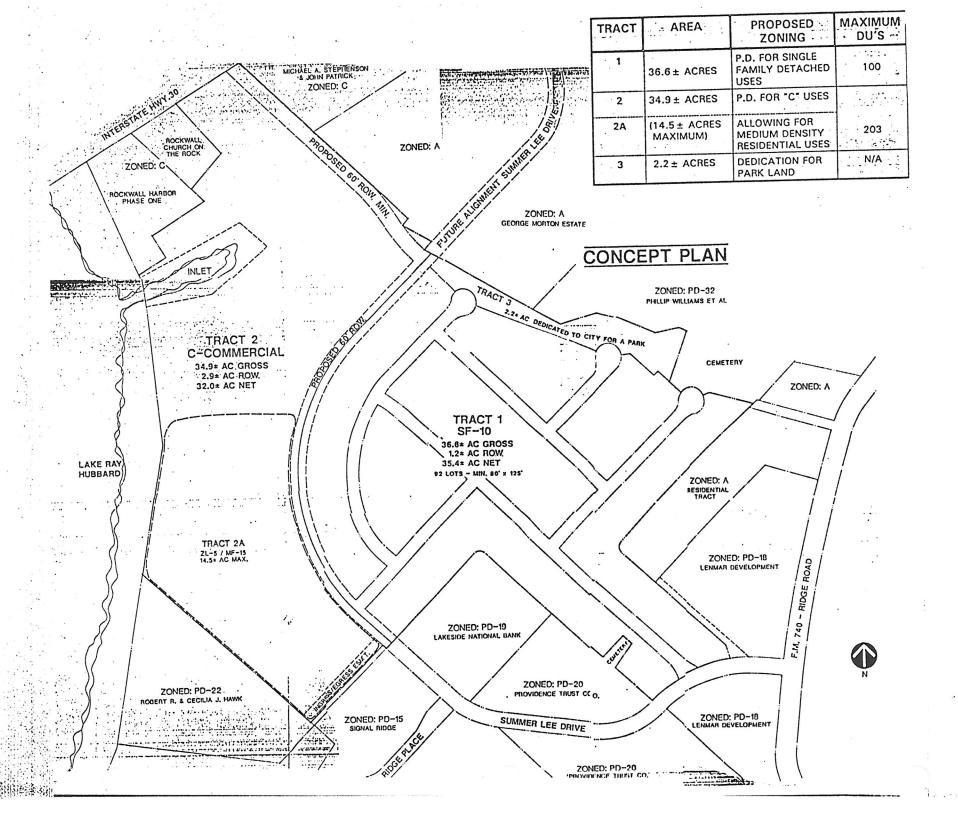

2. <u>Building Design Criteria</u>

- a. Masonry Requirements: Exterior walls of the entire main structure shall consist of a minimum of 75% masonry.
- b. Maximum Height: The maximum height for any structure in this district shall be two stories or 36 ft.
- c. Unit Volume: A minimum of 30% of the units shall have an interior volume which equals or exceeds 8.5 times the floor area.
- d. Private Balcony with Roof: Each unit shall be provided with a private balcony a minimum of 32 sq. ft. in size and each "top floor" balcony shall have a roof of the same materials as the roof of the main structure.

- e. Windows: A minimum of 50% of the windows shall be multi-paned, curvilinear, arched, and/or enhanced with shutters or similar treatment or of a greenhouse style or combination of the above.
- f. Roof Slope: The minimum roof slope shall be 6:12. This roof slope must be provided on a minimum of 80% of the footprint projection of the total unit roof areas of each individual structure.
- g. Chimney Exteriors: All chimneys shall be covered with field applied masonry without wood trim, over prefabricated or field erected flues.
- h. Staggered Wall Lines: There shall be a minimum four (4) foot offset between the relative front walls of any two (2) adjacent units for every four (4) unit footprints in the same building. Exterior balconies shall not qualify as an offset area.

TRACT 3

Approximately 2.2 acres of land to be dedicated at the time of approval of a final plat for Tract 1, to the City of Rockwall for park purposes.

hart your course to a quiet, secluded lifestyle on the shores of Lake Ray ■ Hubbard in Rockwall. Lago Vista, with custom homes from the \$250's to \$400's, offers resort-style living with a city view. From your lakeside home, you'll watch the sun descend behind the Dallas skyline, as you savor the privacy of this tranquil retreat. With only 91 lots, Lago Vista promises to be among the most exclusive and prestigious communities in Rockwall, and a showcase for the city's finest custom homebuilders. Just 20 minutes from downtown Dallas, Rockwall is fast-becoming the area's favorite alternative to bigcity living. This lakeside community offers an array of water sports including fishing, skiing, sailing, and yachting. Lago Vista is located next to a new city park and is just down the shoreline from Chandler's Landing Yacht Club and Marina which offers 550 boat slips, tennis courts, a swimming pool and restaurant. Within the highly acclaimed Rockwall Independent School District, Lago Vista provides families with exceptional educational opportunities. With an average student-to-teacher ratio of 17-to-1, Rockwall schools offer students the chance to learn in a personal and attentive environment, which has resulted in consistently high test scores. Rockwall's residents enjoy easy access via I-30 to downtown Dallas and other major employment centers. Highway 66 provides access to Garland and northeast Dallas, and Highway 190 connects Rockwall to Richardson and Plano. Lot sizes in Lago Vista range from 10,000 to 20,000 square feet. For lot information, contact Rex Robertson at (214) 392-3800 or Larry Delzell at (214) 612-1622.

RIGHT-OF-WAY LANDSCAPE AND IRRIGATION AGREEMENT

STATE OF TEXAS		
)(
COUNTY OF ROCKWALL)(

KNOW ALL MEN BY THESE PRESENTS:

WITNESSETH:

WHEREAS, Developer will install certain landscaping and irrigation improvements in a portion of the right-of-way of Summer Lee Drive within the Lago Vista Addition, an addition to the City of Rockwall, Rockwall County, Texas, as shown on the attached drawing marked Exhibit "A" and made a part hereof, and

WHEREAS, City, under the terms and conditions set forth herein, is agreeable to Developer installing and maintaining the landscape and irrigation improvements (hereinafter called "Improvements") in that certain portion of right-of-way of Summer Lee Drive;

NOW, THEREFORE, for and in consideration of the covenants, obligations and undertakings to be performed by each of the parties to this Agreement, the said parties do hereby agree as follows:

- 1. Developer shall install and maintain the Improvements within that certain portion of the right-of-way of Summer Lee Drive within the Lago Vista Addition to the City of Rockwall, Texas, as shown on Exhibit "A".
- 2. Prior to installation of the Improvements, Developer shall submit seven (7) copies to the City of the complete plans and specifications for such improvements, which plans and specifications have been prepared by a landscape architect or a practicing professional in the field. The plans and specifications shall be drawn to a known scale, including dimensions and distances, and shall clearly indicate the location, type, size and description of all proposed landscape materials and total quantities. In addition, the plans and specifications shall clearly indicate the configuration, location, type, and total number of heads and controllers to be used in the irrigation system for all landscaped areas. Any signage, berms, walls, structures, or other improvements existing or to be

installed or constructed shall be shown on the plans and specifications. All such improvements or structures shall comply with all applicable ordinances of the City.

3. Upon submission of the plans and specifications, the City shall determine if the landscaping and irrigation proposed is of such quality as to improve and enhance the site and its surrounding areas as to be of minimal maintenance requirements. To this end, the City shall have the right to require such revisions to the original plans and specifications as are necessary to achieve the standards set out above.

Any installation of landscaping materials and/or irrigation facilities within rights-of-way under this agreement shall be in full compliance and accordance with the plans and specifications thereof approved by the City.

- 4. The primary landscaping materials to be used by the Developer shall be trees, grass and shrubbery.
- 5. The Developer shall furnish or cause to be furnished, at its expense, all labor, equipment, accessories and services necessary to install all landscaping materials and irrigation facilities in accordance with the approved plans and specifications.
- 6. The City shall inspect such installation and shall require such steps to be taken as are necessary to cause proper installation to be accomplished.
- 7. Upon completion of the installation to the satisfaction of the City, written confirmation thereof shall be furnished to the Developer.
- 8. Developer, its representatives, successors or assigns, at its sole expense, shall furnish all labor, materials, equipment, accessories and services, necessary to maintain irrigation equipment in proper working order, and all plant material installed under this Agreement in a healthy, vigorous growing condition, replacing any plant materials when and as it becomes damaged, unsightly or dead, for a period of two (2) years after delivery of the written confirmation mentioned in section 7 of this Agreement. Developer shall at its sole expense provide water for the purpose of irrigation. During this period, all landscaping materials and irrigation equipment shall be and remain the property of Developer.
- 9. After the written confirmation referred to above, and during the period of Developer's responsibility for maintenance, City shall periodically inspect the areas landscaped and irrigated under this Agreement, to determine that such areas are being properly maintained by the Developer. If, upon

such inspection, City finds that Developer is not properly maintaining such areas, City shall so notify Developer in writing, specifying the deficiencies. If Developer does not remedy such deficiencies within fifteen (15) days following receipt of such written notice, City shall have the option of performing the necessary maintenance work itself and billing Developer for all costs incurred whether by independent contract or by force account, or, the City shall in such case, have the sole option of removing unmaintained landscaping. Developer shall remit all payments to City under this Section within five (5) days of receipt of a statement from the City.

- 10. Prior to the conclusion of the two (2) year maintenance period, Developer, its representatives, successors, or assigns, upon written notice to the City, shall have the option to extend said period two (2) additional years. Sixty (60) days prior to the conclusion of the two (2) year maintenance term, Developer shall notify the Director of Public Services of the City in writing of its desire to extend the maintenance period for an additional two (2) year period upon the same terms and conditions as set forth herein, or of Developer's intention to terminate this agreement and end its maintenance responsibilities for the right-of-way. If no such extension option is exercised by the Developer, its representatives, successors or assigns, all such landscaping materials and irrigation equipment shall become the maintenance responsibility of the HOA upon expiration of the original term. If no HOA is established, City has the right to maintain or remove materials in the right-of-way.
- Developer shall establish and provide all maintenance funds and maintenance bonds for the term of this Agreement or any extension thereof as are required under the regulations of the City.
- Developer, its representatives, successors, or assigns hereby covenants and agrees that no claim. loss, cause of action, suit or other action for damages resulting from death or personal injury to any of the above, or damage to personal property belonging to any of the above, and based upon in any manner the landscaping, irrigation, and maintenance of the said right-of-way will ever be instituted by Developer, its representatives, successors or assigns against the City of Rockwall, its agents or employees.
- 13. Developer, its representatives, successors, or assigns hereby covenants and agrees to indemnify and hold the City of Rockwall, its officers, agents and employees harmless from and against any and all claims, losses, suits, causes of action or demands of any nature whatsoever attributable in any way to the installation and maintenance of the landscaping and irrigation equipment in said right-of-way arising during the term of this Agreement.
 - 14. This Agreement and all requirements hereunder may be modified or amended only by

written instrument executed by the Developer and the City, their representatives, successors or assigns.

- 15. The laws of the State of Texas shall govern the interpretation, validity, performance, and enforcement of this Agreement, and Rockwall County shall be the exclusive venue for the bringing of any action to enforce the terms and conditions of the Agreement.
- 16. City and Developer hereby acknowledge and agree that upon formation of a homeowners association (the "HOA") by Developer with the specific responsibility for, among other things, maintaining the common areas within the Lago Vista subdivision, Developer shall assign and delegate all of Developer's rights, duties, responsibilities and obligations under this Agreement to such HOA pursuant to an assignment and assumption agreement. City hereby agrees and acknowledges that upon such assignment, the City shall look solely to the HOA for, and Developer shall be forever released from, the payment and performance of all duties, obligations and liabilities hereunder.
- 17. Nothing in this agreement shall relieve the Developer, its representatives, successors, or assigns, or the HOA of the legal requirement to comply with the terms of the high weeds and grass ordinance for landscaping located on private property. Neither shall this agreement be constructed so as to require any special notification to the Developer, its representatives, successors, or assigns, or the HOA.

IN WITNESS HEREOF, the parties hereto have executed this Agreement the day and year first above written.

KNOW ALL MEN BY THESE PRESENTS:

THIS AGREEMENT is entered into this day of 19, by and
between the CITY OF ROCKWALL, TEXAS, a municipal Corporation (hereinafter referred to
as "City"), and LAGO VISTA PARTNERS, LTD., a Texas Limited Partnership (hereinafter
referred to as "Developer"), both acting through their duly authorized officers and employees,

WITNESSETH:

WHEREAS, Developer will install certain landscaping and irrigation improvements in a portion of the right-of-way of Summer Lee Drive within the Lago Vista Addition, an addition to the City of Rockwall, Rockwall County, Texas, as shown on the attached drawing marked Exhibit "A" and made a part hereof, and

WHEREAS, City, under the terms and conditions set forth herein, is agreeable to Developer installing and maintaining the landscape and irrigation improvements (hereinafter called "Improvements") in that certain portion of right-of-way of Summer Lee Drive;

NOW, THEREFORE, for and in consideration of the covenants, obligations and undertakings to be performed by each of the parties to this Agreement, the said parties do hereby agree as follows:

- Developer shall install and maintain the Improvements within that certain portion of the right-of-way of Summer Lee Drive within the Lago Vista Addition to the City of Rockwall, Texas, as shown on Exhibit "A".
- 2. Prior to installation of the Improvements, Developer shall submit seven (7) copies to the City of the complete plans and specifications for such improvements, which plans and

specifications have been prepared by a landscape architect or a practicing professional in the field. The plans and specifications shall be drawn to a known scale, including dimensions and distances, and shall clearly indicate the location, type, size and description of all proposed landscape materials and total quantities. - 6. The City shall inspect such installation and shall require such steps to be taken as are necessary to cause proper installation to be accomplished.
- 7. Upon completion of the installation to the satisfaction of the City, written confirmation thereof shall be furnished to the Developer.

- 8. Developer, its representatives, successors or assigns, at its sole expense, shall furnish all labor, materials, equipment, accessories and services, necessary to maintain irrigation equipment in proper working order, and all plant material installed under this Agreement in a healthy, vigorous growing condition, replacing any plant materials when and as it becomes damaged, unsightly or dead, for a period of two (2) years after delivery of the written confirmation mentioned in section 7 of this Agreement. Developer shall at its sole expense provide water for the purpose of irrigation. During this period, all landscaping materials and irrigation equipment shall be and remain the property of Developer.
- 9. After the written confirmation referred to above, and during the period of Developer's responsibility for maintenance, City shall periodically inspect the areas landscaped and irrigated under this Agreement, to determine that such areas are being properly maintained by the Developer. If, upon such inspection, City finds that Developer is not properly maintaining such areas. City shall so notify Developer in writing, specifying the deficiencies. If Developer does not remedy such deficiencies within fifteen (15) days following receipt of such written notice, City shall have the option of performing the necessary maintenance work itself and billing Developer for all costs incurred whether by independent contract or by force account. Developer shall remit all payments to City under this Section within five (5) days of receipt of a statement from the City.
- 10. Prior to the conclusion of the two (2) year maintenance period, Developer, its representatives, successors, or assigns, upon written notice to the City, shall have the option to extend said period two (2) additional years. Sixty (60) days prior to the conclusion of the two (2) year maintenance term, Developer shall notify the Director of Parks and Recreation of the City in writing of its desire to extend the maintenance period for an additional two (2) year period upon the same terms and conditions as set forth herein, or of Developer's intention to terminate this agreement and end its maintenance responsibilities for the right-of-way. If no such extension option is exercised by the Developer, its representatives, successors or assigns, all such landscaping materials and irrigation equipment shall become the property of the City upon expiration of the original term.
 - 11. Developer shall establish and provide all maintenance funds and maintenance bonds

for the term of this Agreement or any extension thereof as are required under the regulations of the City.

12. At the time of turning maintenance responsibilities over to the City, Developer, at its sole expense upon request of the City, shall furnish all labor, materials, equipment, accessories and services to insure irrigation equipment is in proper working order and to remove and replace any damaged or unwanted plant material to meet the City standards for low maintenance landscaping, and leave the areas in a condition acceptable to the City.

This Section applies to all aspects of the maintenance and all areas landscaped and irrigated under this Agreement, including specifically, but not limited to, replacement of damaged or dead landscaping materials and replacement or repair of irrigation equipment.

- Developer, its representatives, successors, or assigns hereby covenants and agrees that no claim. loss, cause of action, suit or other action for damages resulting from death or personal injury to any of the above, or damage to personal property belonging to any of the above, and based upon in any manner the landscaping, irrigation, and maintenance of the said right-of-way will ever be instituted by Developer, its representatives, successors or assigns against the City of Rockwall, its agents or employees.
- Developer, its representatives, successors, or assigns hereby covenants and agrees to indemnify and hold the City of Rockwall, its officers, agents and employees harmless from and against any and all claims, losses, suits, causes of action or demands of any nature whatsoever attributable in any way to the installation and maintenance of the landscaping and irrigation equipment in said right-of-way arising during the term of this Agreement.
- This Agreement and all requirements hereunder may be modified or amended only by written instrument executed by the Developer and the City, their representatives, successors or assigns.
 - 16. The laws of the State of Texas shall govern the interpretation, validity, performance,

CITY OF ROCKWALL

FACILITIES AGREEMENT

THIS AGREEMENT entered into on the ____ day of _____, 19___, by and between the City of Rockwall, Texas, hereinafter known as the "CITY", and Lago Vista Partners, Ltd., whose address is 14755 Preston Road, Suite 830, Dallas, Tx. 75240, hereinafter known as the "DEVELOPER", witnesseth that:

WHEREAS, the Developer has requested the City to permit the platting and/or development of a tract of land known as Lago Vista Phase 1 Addition to the City of Rockwall; and,

WHEREAS, the City has approved such platting and/or development as being in compliance with all requirements of the Zoning Ordinance and Subdivision Regulations of the City, except as herein agreed upon; and

WHEREAS, the Developer, its vendors, grantees, assigns, successors, trustees and all others holding any interest now or in the future, agree and enter into this contract which shall operate as a covenant running with the land and be binding upon the Developer and its representatives;

NOW, THEREFORE, the City and Developer, in consideration of the mutual covenants and agreements contained herein do mutually agree as follows:

A. ZONING, PLATTING AND SITE PLANNING

All property owned by the Developer and located within the limits of the development shall be zoned and platted in accordance with the Zoning Ordinance and Subdivision Regulations of the City before any Building Permit will be issued. The Developer shall dedicate, at no cost to the City , all street rights-of-way, alleys, drainage easements, floodways, and other dedications as required by the City at the time of platting.

The Developer shall comply with all conditions included in the approval of the project. Specific conditions are as follows:

1. That the alley proposed along Chaparral Drive be screened, as approved by the City Engineer, to prevent drivers from crossing the alley to the gravel drive for access out to FM-740.

2. That the cemetery adjacent to the lots in the subdivision be mowed, cleaned and fenced by the developer in conjunction with the construction of the subdivision.

B. PUBLIC IMPROVEMENTS

All public improvements, including streets, utilities, drainage, sidewalks, street lighting, street signage, and all other required improvements, shall be provided by the Developer, at no cost to the City, unless otherwise provided herein, in accordance with the Subdivision Regulations of the City, and as approved by the City Engineer or his agent. Such improvements shall be installed within all applicable time frames in accordance with the Subdivision Regulations of the City unless otherwise approved herein. Engineering studies, plan/profile sheets, and other construction documents shall be provided for by the Developer at the time of platting as required by the Subdivision Regulations. Such plans shall be approved by the City Engineer or his agent prior to approval of a Final Plat. Construction of such improvements shall not be initiated until a preconstruction conference has been held regarding the proposed construction.

Construction of all public improvements shall be subject to routine review by the City Engineer or his agent to evaluate conformance with the construction plans and City standards and specifications. However, such review and evaluation shall not relieve the Developer, its engineer or agent of its obligations for the design, construction and maintenance of the improvements as set out in this Agreement and other relevant ordinances of the City. Any modification, review or evaluation by the City Engineer shall substantially conform to accepted engineering practices.

The Developer will be responsible for the installation of any required street lighting and for the cost of installation of all street name signs. All required street lighting shall be installed and the City shall be reimbursed for the cost of all street name signs prior to final acceptance of any public improvements, and the issuance of any Building Permits, unless otherwise provided herein.

Upon completion of construction of public improvements as required by this Agreement and as required by the Subdivision Regulations, the Developer shall deliver to the City a reproducible copy of as-built construction plans of the public improvements constructed or engineered by the Developer.

C. THOROUGHFARES

In conjunction with the platting and development of the Lago Vista Addition, the developer shall complete the following:

1. All required Rights-of-way shall be dedicated to the City at the time of platting.

- 2. All internal roads shall be fully constructed up to a maximum width of 48 feet of pavement in conjunction with construction of the development unless otherwise approved herein. Such construction shall be in accordance with the Subdivision Regulations, and plans shall be approved by the City Engineer or his agent prior to Final Plat approval.
- 3. The developer shall construct two lanes of Lakefront Trail extending from Summer Lee Drive to the I-30 service road and two lanes of Summer Lee Drive from its current point of termination to its intersection with Lakefront Trail in conjunction with the development of this subdivision.
- 4. The developer shall dedicate the right of way for a commercial street extending from Summer Lea Drive to PD-22, as shown on the approved final plat.

D. UTILITIES

1. Water - All required onsite and offsite water lines and other improvements shall be constructed by the Developer and accepted by the City prior to the issuance of any Building Permit, unless otherwise approved herein.

2. Sewer -

- a. All required onsite and offsite sewer lines and other improvements shall be constructed by the Developer and accepted by the City prior to the issuance of any Building Permit, unless otherwise approved herein.
- b. The developer shall escrow with the City a total of \$18,941 for the developer's pro rata cost for the extension of a force main extending from the Signal Ridge lift station.
- 3. Drainage All required onsite and offsite improvements shall be constructed by the Developer and accepted by the City prior to the issuance of any Building Permit, unless otherwise approved herein.

E. PARKS

The developer shall dedicate to the City a total of 2.169 acres for parkland purposes, as shown on the approved final plat. The developer shall also clear the parkland of underbrush as required by the City in conjunction with the development of the subdivision.

F. PUBLIC FACILITIES TO BE PROVIDED BY THE CITY

The City makes no guarantee that water supply or wastewater treatment capacity will be available at any particular time or place, it being fully understood by both parties hereto that the ability of the City to supply water and wastewater services is subject to the City's water and wastewater system capacity. The City shall be the sole judge of the availability of such capacity to supply such water and/or wastewater services, provided, however, that the City will use its best efforts to insure that said water supply and wastewater treatment capacity is available.

G. FEES TO BE PAID BY THE DEVELOPER

The Developer and subsequent subdividers within the Development hereby agree to pay the City all required fees, including impact fees, at the time specified in the applicable City ordinances.

H. MAINTENANCE

Prior to final acceptance of any public improvements, the Developer shall furnish to the City a good and sufficient maintenance bond in the amount of ten per cent (10%) of the contract price of such improvements, or in such amount as approved by the City, to indemnify the City against any repairs which may become necessary to any part of the construction work performed in connection with the subdivision and/or development, arising from defective workmanship or materials used therein, for a period of one (1) year from the date of final acceptance of such improvements.

I. WAIVER

The developer expressly acknowledges that by entering into this contract, the Developer, its successors, assigns, vendors, grantees, and/or trustees, shall never construe this contract as waiving any of the requirements of the Zoning Ordinance or Subdivision Regulations or any other ordinance of the City, except as herein agreed upon.

J. HOLD HARMLESS AGREEMENT

The Developer, its successors, assigns, vendors, grantees, and/or trustees do hereby agree to fully release, indemnify, and hold harmless the City from all claims, suits, judgments, and demands which have accrued or which may accrue because of such development.

K. AMENDMENTS

This Agreement may be changed or modified only with the written consent of the Developer and of the governing City Council of the City. Such modification may be requested by either party, but shall not in any event be effective unless and until approved by the City Council of the City.

L. REVOCATION

In the event the Developer fails to comply with any of the provisions of this Agreement, the City shall be authorized to cease issuance of any further Certificates of Occupancy or Building Permits on property owned by the Developer, and the City shall be further authorized to file this instrument in the Mechanic's Lien records of Rockwall County as Mechanic's Lien against the Developer's property; and in the alternative, the City shall be authorized to levy an assessment against the Developer's property for public improvements to be held as tax lien against the property by the City.

M. CONTINUITY

This Agreement shall be a covenant running with the land and shall be binding upon the Developer, its successors, heirs, assigns, grantees, trustees and/or representatives.

N. SEVERABILITY

The provisions of this Agreement are severable and, in the event any word, phrase, sentence, paragraph, section or other provision of this Agreement, or the application thereof to any person or circumstance, shall ever be determined by a court of competent jurisdiction to be invalid, illegal, or unenforceable for any reason, the remainder of this Agreement shall remain in full force and effect and the application thereof to any other person or circumstance shall not be affected thereby. The invalid, illegal or unenforceable provision shall be rewritten by the parties to this Agreement to accomplish the parties' original intent as nearly as possible.

O. TERMINATION AND RELEASE

Upon the satisfactory completion by the Developer and final acceptance by the City of all requirements of this Agreement, this Agreement shall terminate and the City will execute a release of covenant to the Developer, its assigns, successors, grantees, trustees and/or representatives and the City shall file said release in the Rockwall County Deed Records.

In Witness whereof, each of the parties hereto has caused this Agreement to be executed by its undersigned duly authorized representative as of the date hereinabove first mentioned.

REASONS FOR REQUEST

SUMMARY OF REQUEST

The purpose of this request is to permit the development of single family homes east of the proposed extension of Summer Lee Drive, as well as a variety of commercial, retail, restaurant, lodging and entertainment uses along the Interstate 30 frontage and overlooking Lake Ray Hubbard. The tract between Signal Ridge Place Condominiums and P.D. 22 (zoned for apartments or a 10 story hotel) is proposed for medium density housing. Tract 3A which is located between the planned commercial and the medium density residential will have an option of being developed for a continuation of either the commercial development or the residential. This determination will be made at the time of Comprehensive Site Plan approval.

EXISTING ZONING

As illustrated on the "Existing Zoning" exhibit, approximately one half of the property is currently zoned PD - 7, approximately 2.9 acres are zoned "C" commercial along I-30, and $1.5 \pm$ acres of land are currently zoned Agriculture. The remaining 30.2 acres of this area of request encompasses the residential portions (Tracts B, C, D and E) of existing Planned Development District 18. P.D. 18 currently permits 79 zero lot line lots and 115 townhomes while P.D. 7 permits a variety of commercial uses as well as an option for 30 patio homes.

PROPOSED ZONING

Tract 1 is being requested for "conventional" single family lots, with a minimum lot size of 10,000 square feet. The Concept Plan generally illustrates the street and circulation patterns anticipated for this area. The density shall be a maximum of 3.8 dwelling units per acre. The development will generally be in accordance with the SF-10 regulations of the Comprehensive Zoning Ordinance, however, the regulations of base ordinance has been upgraded in the proposed Planned Development Conditions for; masonry, setbacks and lot frontages. It is anticipated that approximately 100 single family lots will be platted within this $38.8 \pm$ acres.

Tract 3 is being requested for a variety of retail, commercial, entertainment and lodging uses. The specific uses and development regulations are being revised from the uses established in P.D. 7 to allow for a wider variety of retail uses as well as destination type entertainment uses while eliminating the potential for structures with non-masonry exteriors. The proposed conditions for Tract 3 also reflect a reduction of the height as currently permitted in P.D. 7 from 120 feet (with approval of City Council) to a maximum cap of 36 feet. This height limitation is salient for the preservation of the views of the lake from the properties to the northeast.

Medium density housing was deemed appropriate for Tract 2 given the surrounding zoning and development patterns coupled with the severe topography (slopes average 7 to 10%). This land configuration is well suited for multi-family, as the building pads are clustered, and the open spaces and amenities can take advantage of this unique topography. If the maximum density of 14 dwelling units per acre is pursued however, the development will be subject to stringent development regulations and the inclusion of various aesthetic amenities to assure a high quality residential development.

Reasons for Request page 2

These site development requirements include: increased landscaping, meandering sidewalks, the screening of the parking areas from the streets, strict control of the placement and design of carports, and non-offensive site lighting. The aesthetics of the buildings has also been addressed in the P.D. Conditions; the enlarged unit volumes, balconies, increased roof slopes, masonry chimney exteriors, decorative windows and off-set building facades are all requirements. These building design criteria coupled with the site design criteria will produce a high quality, aesthetically pleasing residential development.

The proposed P.D. conditions also reflect a desire of the Signal Ridge Homeowners Association that additional setback and landscaping be provided along the common property line between their existing homes and the residential uses planned for our Tract 2. However, this provision will be subject to the retention of the "ingress and egress" easement along this property line, as shown on the Concept Plan, and that no other access is required to be provided between the subject property and P.D. 22.

Finally, Tract 3a is being zoned to permit either commercial or residential uses, depending on the market conditions and the surrounding development activities. A combination of commercial and residential uses will not be permitted. In the event that residential is developed on this property, it will be subject to all the provisions of the MF-15 District regulations as well as the site and building regulations as herein required for Tract 2. The commercial development will be in keeping with the development regulations as specified for Tract 3 of this ordinance.

PLANNED DEVELOPMENT DISTRICT FOR RESIDENTIAL, COMMERCIAL & PARK USES

This Planned Development District is subject to the following Special Conditions:

- 1. Planned Development District Number __ shall be developed generally in accordance with the Tract Map for said area, which is attached to and made a part hereof as Exhibit "A".
- 2. That all development of Tract 1 by this ordinance shall be in substantially in accordance with the Concept Plan, and no substantial change in the development shall be permitted except after obtaining approval of the change of such Concept Plan in the manner required for change and amendments to the Comprehensive Zoning Ordinance.
- 3. Prior to the issuance of any building permit for Tract 2, Tract 3 or any part thereof (i.e. Tract 3a) in Planned Development District Number ______, a Comprehensive Site Plan of the development shall be filed with the City Council of the City and shall be approved by them and filed as a part of this ordinance. Such required detailed plan shall set forth the requirements for ingress and egress to the property, public or private streets or drives, with adequate right-of-way to conform to the thoroughfare plan of the City of Rockwall, sidewalks, utilities, drainage, parking space, height of buildings, maximum lot coverage, yards and open spaces, screening walls or fences and other development and protective requirements considered necessary by the City Council to create a reasonable transition to and protection of the adjacent property. Such approval of the City Council of the detailed site plan shall be considered as an amendment to this ordinance and shall be applicable to the property involved.
- 4. The area covered by the Planned Development District Number __ shall be divided into the approximate following number of acres for the following uses, and limited to the number of dwelling units as hereafter provided to-wit:

TRACT	GROSS ACRES	PROPOSED ZONING	MAXIMUM DU'S
1	38.8± ACRES	P.D. FOR SINGLE FAMILY DETACHED USES	100
2	5.1± ACRES	P.D. FOR MEDIUM DENSITY RESIDENTIAL USES	71

rev. 2/16/94

TRACT 1

Approximately 38.8 acres of zoning classification of Planned Development Single Family to be developed under the SF - 10 District regulations of the Comprehensive Zoning Ordinance, except as modified herein:

- A. <u>Minimum lot frontage</u> on a public street 70 feet, measured at the front building setback line.
- B. <u>Minimum depth of front setback</u> 25 feet.
- C. <u>Minimum masonry exterior</u> exterior wall construction shall consist of a minimum of 75% masonry with no single elevation of any residence containing less than 50% of its exposed surface of masonry construction, as herein specified. This construction standard applies only to the first floor of the residential structure.

TRACT 2

Approximately 5.1 acres of zoning classification of Planned Development Medium Density Multi-Family Residential District developed under the MF-15 District regulations of the Comprehensive Zoning Ordinance, except as modified herein:

A. Permitted Uses

- 1. Zero Lot Line Residential as outlined in the City of Rockwall Comprehensive Zoning Ordinance under Section 2.5, not to exceed a total of 25 dwelling units.
- 2. All permitted uses in the MF-15 District, with a maximum of 71 dwelling units, subject to the criteria in B. and C. below:

B. <u>Site Design Criteria</u>

- 1. Site landscaping along all street frontages: A minimum landscape buffer strip of 15 feet shall be provided adjacent to Summer Lee Drive, exclusive of driveways and access ways at points of ingress and egress to the lot. This landscaped area shall contain, at the minimum, one large tree and three small trees and shrubs for each 50 linear feet of this landscape buffer strip.
- 2. Meandering Public Sidewalks: A 5 ft. wide, barrier-free meandering public sidewalks shall be provided along all street frontages. The sidewalk shall be designed to meander in such a way that it is located a minimum of 5 ft. from the

curb line and alternately to be within 5 ft. from the back of the landscape easement. This undulation should occur approximately every 300 feet of frontage. An appropriate public access easement shall be created when the sidewalk is on private property.

- 3. Parking Areas: A minimum of 25 percent of the required parking must be located under a roof. The parking areas shall be screened from public rights-of-way through building placement and/or the provision of garage doors, grade separations, landscaping, berming, or other acceptable screening technique.
- 4. Carports: In the event that carports are constructed, these structures shall not be located between the street frontages and the dwelling units. All carports must be constructed of materials which are architecturally compatible with the roof and trim of the main structure. Flat built-up roofs will be allowed only when all other materials meet the intent of this paragraph (i.e., prefabricated or other metal units are not considered compatible with brick, stone, and/or wood siding and trim).
- 5. Building Placement: Where three (3) or more buildings are within 100 feet of the street right-of-way and are parallel to the right-of-way having a footprint greater that four (4) units, one-third of these buildings must be turned in such that their lengths are a minimum of 45° to the street right-of-way. The remainder may be parallel to the street.
- 6. Exterior Lighting: Exterior lighting fixtures, whether attached to buildings or free-standing, shall be of harmonious design. A lighting plan, showing fixtures and lighting levels, shall be submitted to the City Plan Commission for its approval at the time of site plan review. In no event shall "area" lighting, other than "cut-off" type fixtures mounted 12 ft. or less above grade, be allowed to be mounted on a building wall.

C. Building Design Criteria

- 1. Masonry Requirements: Exterior walls of the entire main structure shall consist of a minimum of 75% masonry.
- 2. Maximum Height: The maximum height for any structure in this district shall be two stories or 36 ft.
- 3. Unit Volume: A minimum of 30% of the units shall have an interior volume which equals or exceeds 8.5 times the floor area.
- 4. Private Balcony with Roof: Each unit shall be provided with a private balcony a minimum of 32 sq. ft. in size and each "top floor" balcony shall have a roof of

the same materials as the roof of the main structure.

- 5. Windows: A minimum of 50% of the windows shall be multi-paned, curvilinear, arched, and/or enhanced with shutters or similar treatment or of a greenhouse style or combination of the above.
- 6. Roof Slope: The minimum roof slope shall be 6:12. This roof slope must be provided on a minimum of 80% of the footprint projection of the total unit roof areas of each individual structure.
- 7. Chimney Exteriors: All chimneys shall be covered with field applied masonry without wood trim, over prefabricated or field erected flues.
- 8. Staggered Wall Lines: There shall be a minimum four (4) foot offset between the relative front walls of any two (2) adjacent units for every four (4) unit footprints in the same building. Exterior balconies shall not qualify as an offset area.

D. Additional Provision

In the event that the "ingress and egress" easement along the southeastern property line of Tract 2, as shown on the Concept Plan, is retained and no other access is required to be provided between the subject property and P.D. 22 there shall be a minimum building setback from this property line of 70 feet. There shall also be a landscaped hedge of photenia planted along this common property line, to provide a visual buffer between these properties. This landscaping shall be installed at the time this easement is improved (paved). If this "ingress and egress easement" is relocated from this property line, then a side yard setback of 15 feet will be required and no additional landscaping will be provided.

TRACT 3

Approximately 29.8 acres of zoning classification of Planned Development Commercial District developed under the "C" District regulations of the Comprehensive Zoning Ordinance, except as modified herein:

A. Permitted Uses:

1. Any retail businesses, personal services, professional service, business, professional service, business services conducted completely enclosed building

except the following: lumberyards or contractor yards, farm equipment or other heavy equipment sales or service, farm products warehousing and storage or stockyards, general warehousing or storage.

- 2. Planned Shopping centers and neighborhood convenience centers
- 3. Office buildings and accessory uses
- 4. Restaurants, including accessory outdoor seating
- 5. Hotel, motel
- 6. Theaters and auditoriums
- 7. Paved parking lots, not including commercial parking lots
- 8. Fabrication of jewelry for sale on-premises
- 9. Marina
- 10. Other uses similar to above

SECTION 2. The granting of the Planned Development District Number 7 to the above-described property is subject to the following Special Conditions:

- (1) Planned Development District Number 7 shall be developed generally in accordance with the site plan for said area, which is attached to and made a part hereof as Exhibit "A."
- (2) That all development of property covered by this ordinance shall be in accordance with the approved site plan, and no substantial change in the development shall be permitted except after obtaining approval of the change of such site plan in the manner required for change and amendments to the Comprehensive Zoning Ordinance.
- (3) Prior to the issuance of any building permit in Planned Development District Number 7, a Comprehensive Site Plan of the Development shall be filed with the City Council of the City and shall be approved by them and filed as a part of this ordinance. Such required detailed plan shall set forth the requirements for ingress and egress to the property, public or private streets or drives, with adequate rightof-way to conform to the thoroughfare plan of the City of Rockwall, sidewalks, utilities, drainage, parking space, height of buildings, maximum lot coverage, yards and open spaces, screening walls or fences and other development and protective requirements considered necessary by the City Council to create a reasonable transition to and protection of the adjacent property. Such approval by the City Council of the detailed site plan shall be considered as an amendment to this ordinance and shall be applicable to the property involved.
- (4) The area covered by the Planned Development District Number 7 shall be divided into the following uses, with the following number of acres, and limited to the number of dwelling units as hereafter provided, to-wit:

	Acres
Retail uses under Neighborhood Service District Restrictions	4.30
Marina under Water Recreation District Restrictions	5.85
Townhouses and Community Center (maximum density of 8 units per acre)	25.88
Multiple-Family (maximum density of 16 units per acre)	5.17
TOTAL:	41.20

SECTION 3. That all ordinances of the City of Rockwall in conflict with the provisions of this ordinance be, and the same are hereby, repealed, and all other ordinances of the City of Rockwall not in conflict with the provisions of this ordinance shall remain in full force and effect.

SECTION 4. That the above-described tract of land shall be used only in the manner and for the purposes provided for by the Comprehensive Zoning Ordinance of the City of Rockwall, as heretofore amended, and as amended herein, by the granting of this zoning change.

SECTION 5. Any person, firm or corporation violating any of the provisions of this ordinance shall be subject to the same penalty as provided for in the Comprehensive Zoning Ordinance of the City of Rockwall, as heretofore amended, and as amended hereby, and upon conviction shall be punished by a fine not to exceed the sum of Two Hundred Dollars (\$200.00) for each offense, and each and every day such offense shall continue shall be deemed to constitute a separate offense.

SECTION 6. Whereas, it appears that the above-described property requires classification as a Planned Development District in order to permit its proper development and in order to protect the public interest and general welfare of the City of Rockwall, such requirement creates an urgency and an emergency in the preservation of the public welfare and requires that this ordinance take effect immediately from and after its passage and the publication of the caption of said ordinance, as the law in such cases provides.

AN ORDINANCE OF THE CITY OF ROCKWALL, TEXAS, AMEND-ING THE COMPREHENSIVE ZONING ORDINANCE OF THE CITY OF ROCKWALL, TEXAS, AS HERETOFORE AMENDED SO AS TO GRANT A ZONING CHANGE AND APPROVE A PRELIMINARY PLAN FOR PD-18 ON LOTS 1 - 5, 7 - 11, 14 - 21, AND THE WESTERN END OF LOT 22, LAKE RIDGE ESTATES; PROVIDING SPECIAL CONDITIONS; PROVIDING A PENALTY OF FINE NOT TO EXCEED THE SUM OF ONE THOUSAND DOLLARS (\$1,000) FOR EACH OFFENSE; PROVIDING FOR A SEVERABILITY CLAUSE; PROVIDING FOR A REPEALER CLAUSE; AND PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, the Planning and Zoning Commission of the City of Rockwall and the governing body of the City of Rockwall in compliance with the laws of the State of Texas and the ordinances of the City of Rockwall, have given the requisite notices by publication and otherwise, and have held public hearings and afforded a full and fair hearing to all property owners generally and to all persons interested in and situated in the affected area, and in the vicinity thereof, and the governing body in the exercise of its legislative discretion, has concluded that the Comprehensive Zoning Ordinance of the City of Rockwall should be amended as follows:

NOW, THEREFORE, BE IT ORDAINED by the City Council of the City of Rockwall, Texas:

SECTION 1. That the Comprehensive Zoning Ordinance of the City of Rockwall, Texas, as heretofore amended, be and the same is hereby, amended by amending the Zoning Map of the City of Rockwall so as to approve a zoning change and preliminary plan for "PD" Planned Development District Number 18, Lots 1 - 5, 7 - 11, 14 - 21, and the western end of Lot 22, Lake Ridge Estates.

SECTION 2. That Planned Development District Number 18 shall be used only in the manner and for the purposes authorized by the Comprehensive Zoning Ordinance of the City of Rockwall, as heretofore amended and as amended hereby, provided that the granting of Planned Development District No. 18 to the above described tract of land is subject to the following special conditions:

- Prior to the issuance of any building permit in Α. Planned Development District No. 18 a comprehensive development plan shall be filed with the Planning and Zoning Commission, and after appropriate recommendation by the Commission, and after hearing, the City Council shall approve a final development plan, which shall be filed and included as Exhibit "A" and made a part of this ordinance for all purposes. Such development plan shall set forth in detail the requirements for ingress and egress to the property, public or private streets or drives, with adequate right-of-way to conform to the Thoroughfare Plan of the City of Rockwall, sidewalks, utilities, drainage, parking space, height of buildings, maximum lot coverage, yards and open spaces, screening walls or fences and other development and protective requirements considered necessary by the City Council so as to create a reasonable transition to and protection of the adjacent property.

AGREEMENT

PLAINTIFF'S EXHIBIT

THE STATE OF TEXAS

This Agreement made by and among A. P. ROFFINO ("Roffino"), KIRBY ALBRIGHT ("Albright") and SIGNAL DEVELOPMENT COMPANY ("Signal") this Rep. day of May, 1982;

WITNESSETH:

WHEREAS, the parties hereto are interested in the construction of a road from F.M. Road 740 to the south service road of Interstate 30, of a width required by and constructed to standards of the City of Rockwall; and WHEREAS, the parties acknowledge that Roffino and

Albright are desirous of having Segment I built to a width greater than that required for servicing Signal's needs and are agreeable to paying the additional cost thereof to STATEEN (10) CONSTRUCT Such Street Fifteen (15) feet wider to meet said requirement; and

WHEREAS, Signal has no interest to be served by the portions referred to as Segments II, III, and IV which are covered by this Agreement insofar as they relate to the other two parties; and

WHEREAS, it is contemplated that Signal will award the contract for the installation of Segment I; and

WHEREAS, the parties hereto desire to define their respective rights and obligations as relating to all other parties hereto and as to the other Segments as they relate to Roffino and Albright;

NOW, THEREFORE, in consideration of the premies and in further consideration of the mutual promises, covenants and conditions to be performed by the parties hereto, the parties hereto do hereby agree as follows:

1. Roffino, Albright and Signal do hereby agree to pay pro rata the construction costs of Segment I, including sur-

veying and engineering fees for preparing plans, specifications, bid documents, and construction staking associated with the construction of said roadway, as shown on Exhibit "A", identified as Segment I, which construction will commence upon the approval by the City of Rockwall of the plat and plans for Signal Ridge Development and the execution by all parties to this Agreement.

2. The contract will be awarded by Signal, and Albright agrees to pay and be responsible for the estimated cost of \$22,679.12, representing 8.89% of the total cost; and Roffino agrees to pay the estimated cost of \$68,042.96, representing 22.67% of the total cost. It is contemplated that the total cost of Segment I will aggregate the sum of \$199,500.00, and the difference between the amounts committed to be paid by Roffino and Albright will be paid by Signal, although an estimated \$42,000.00 of said balance represents funds advanced by Signal for the benefit of other interested parties for whom Signal is Acting. Attached hereto, marked Exhibit "B", is a detailed breakdown of said cost estimates, including cost estimates for Segments II, III and IV. The estimated contributions for such Segments are as follows:

	Estima	ted Cost	% of Total Co	
Seament	Albright	Roffino	Albright	Roffino '
Ī	\$22,679.12	\$68,042.96	8.89	26.67
ΙΙ	13,125.00	39,375.00	25.0	75.0
III	28,875.00	9,625.00	75.0	25.0
IV ·	9,325.00	27,975.00	25.0	75.0
	\$74,004.12	\$145,017.96		

- 3. Construction of Segments II and III will commence on or before twelve (12) months after the date of completion and acceptance of the City of Rockwall of Segment I.

 Construction of Segment IV will occur concurrently with the construction of paving of Segment V.
- 4. Roffino represents to the other parties hereto that the funds covering Roffino's cost of Segment I are currently

held by RepublicBank-Dallas, and will be funded pro rata as the progress payments are made and approved by the architect covering Roffino's share of the cost.

- 5. Albright represents that his share of the costs of Segment I are available and will be made on the same basis as the contributions to be paid by Roffino.
- 6. Signal warrants and represents that the balance of the funds needed to complete the cost of Segment I is available and will be paid pursuant to the terms of the construction contract. The performance by Signal of its obligations hereunder are to be guaranteed by Joe Zehr pro- havided, however, that if said guarantee is not delivered, then payment by Albright and Roffino will be made only upon completion of the construction and the acceptance thereof by the City of Rockwall as meeting the requirement.
- 7. Anything to the contrary herein notwithstanding, the obligations of all parties with respect to Signal shall become binding and fixed by the execution hereof; provided, however, that the obligations on the part of Albright and Roffino with respect to Segments II and III will be conditioned upon both Albright and Roffino establishing satisfactory evidence to each other of the ability to complete the paving of the two segments and that the funds therefor are available for purposes of paying the contractor to as to preclude any lien being established against the property by either Albright and/or Roffino.

IN WITNESS WHEREOF, the parties have executed this Agreement this 7_{\pm} day of May, 1982.

IN THE DISTRICT COURT

OF ROCKWALL COUNTY, TEXAS

354TH JUDICIAL DISTRICT

FINDINGS OF FACT AND CONCLUSIONS OF LAW

The Court makes the following Findings of Fact and Conclusions of Law in this action:

Findings of Fact

- 1. The parties to this action are KIRBY ALBRIGHT ("Albright"), Plaintiff, MARY THERESA ROFFINO, INDEPENDENT EXECUTRIX OF THE ESTATE OF A. P. ROFFINO, DECEASED (the "Executrix"), Defendant and Third-Party Plaintiff, and PEAK INVESTMENTS, INC. ("Peak"), Third-Party Defendant.
 - 2. Albright is a resident of Rockwall County, Texas.
 - The Executrix is a resident of Dallas County, Texas.

- 4. Peak is a Texas corporation with its principal office in Rockwall County, Texas.
- 5. As of May 3, 1982, Albright, A. P. Roffino ("Roffino") and Signal Development Corporation ("Signal"), respectively, owned contiguous tracts of land in Rockwall County, Texas, which tracts are referred to herein as the "Albright Tract," the "Roffino Tract" and the "Signal Tract," respectively.
- 6. Prior to the events described below, the Albright Tract and the Roffino Tract were essentially landlocked with no ingress or egress to or from existing roads which was suitable to allow development of such Tracts.
- 7. On or about May 3, 1982, Albright, Roffino and Signal executed and entered into a written contract styled "Agreement" (the "Agreement").
- 8. The purpose of the Agreement was to provide for the dedication of rights-of-way and construction of a road from Farm Road 740 to the south service road of Interstate Highway 30, which road would cross the Signal Tract and the Roffino Tract and would benefit all three tracts.
- 9. In entering into the Agreement, the parties intended and agreed that Albright, Roffino and Signal, as appropriate, would dedicate the rights-of-way for the road; that the parties would obtain

right-of-way dedications from other affected landowners: Albright, Roffino and Signal would pay their shares of the cost of constructing the road as set forth in the Agreement in accordance with a formula specified in the Agreement; and that the road would be constructed in five (5) segments, being Segments I, II, III, IV and V, with Segment I to be located primarily on the Signal Tract (with portions on several tracts owned by persons who were not parties to the Agreement) and to benefit the Signal and Roffino Tracts; Segments II, III and V to be located on the Roffino Tract and to benefit the Albright and Roffino Tracts; and Segment IV to be located on additional property owned by Albright and to benefit the Albright and Roffino Tracts, all as described in an exhibit to the Agreement.

- 10. Albright and Roffino also agreed that Roffino would pay the entire cost of Segment V, and that Segments II and III would be constructed after Segment I was completed and accepted by the City of Rockwall.
- 11. An implied term of the Agreement was that the parties would remain ready to perform their obligations under the Agreement and would take no action which would prevent or render impossible the performance of any party to the Agreement.
- 12. The Agreement did not provide that the obligations of the parties were assignable to third parties.
- 13. Segment I was dedicated and constructed as agreed by the parties.

- 14. The construction of Segment I provided the Roffino Tract with ingress and egress to and from Farm Road 740, relieved the Roffino Tract of its landlocked condition and resulted in a substantial benefit to the Roffino Tract and, therefore, to Roffino.
- 15. Albright contributed his share of the cost of constructing Segment I and (along with certain associates) dedicated a portion of the right-of-way for Segment I pursuant to the Agreement and in reliance on Roffino's agreement to perform his obligations relative to Segments II, III, IV and V.
- 16. Segment I was completed and accepted by the City of Rockwall on or about September 13, 1983.
- 17. Before Segment I was completed and accepted by the City of Rockwall, Roffino, without Albright's consent, sold the Roffino Tract (including the land on which Segments II, III and V were to be constructed) to Peak.
- 18. Peak simultaneously subdivided the Roffino Tract into numerous smaller tracts and sold same to other parties.
- 19. As a result of the transactions described in Findings of Fact Nos. 17 and 18, some eighteen (18) different parties became the owners of portions of the land on which Segments II, III and V were to be constructed.

- 20. In connection with the sale of the Roffino Tract to Peak, Roffino and Peak executed and entered into a written agreement under which Roffino purported to assign and Peak purported to assume Roffino's obligations under the Agreement, all without Albright's consent.
- 21. Roffino's act of selling the Roffino Tract to Peak as described above prevented Roffino from being able to perform the Agreement relative to Segments II, III and V, because after the sale Roffino was not able to dedicate the rights-of-way for Segments II, III, and V or to cause Segments II, III and V to be constructed.
- 22. After the sale of the Roffino Tract to Peak, Roffino renounced his obligations under the Agreement relative to Segments II, III, IV and V and asserted that the obligations belonged to Peak.
- 23. Roffino never performed his obligations under the Agreement relative to Segments II, III, IV and V.
- 24. Peak never performed the obligations under the Agreement which Roffino purported to assign and Peak purported to assume.
- 25. As a direct and proximate result of Roffino's actions, the rights-of-way for Segments II, III and V were not dedicated, Segments II, III, IV and V were not constructed, the Albright Tract remains essentially landlocked, and Albright has been deprived of the benefits he was entitled to receive under the Agreement.

- 26. By selling the Roffino Tract under the circumstances described above and thereby preventing performance of the Agreement relative to Segments II, III, IV and V, Roffino breached the Agreement.
- 27. Roffino's breach was an ordinary breach or, alternatively, a breach by anticipatory repudiation.
- 28. Roffino's breach excused further performance or attempted performance under the Agreement by Albright.
- 29. Under the circumstances that existed after Roffino's breach of the Agreement, any further performance or attempted performance under the Agreement by Albright would have been futile.
- 30. Roffino's breach of the Agreement was a proximate cause of damages to Albright.
- 31. The amount of damages to Albright proximately caused by Roffino's breach of the Agreement was \$76,975.00.
- 32. If Roffino had not breached the Agreement, the road would have been completed by January 1, 1986, at the latest.
- 33. Albright presented his claim(s) under the Agreement to Roffino or his duly authorized agent.
- 34. Roffino did not tender the just amount owed (or any other performance under the Agreement) within thirty (30) days of Albright's presentation of his claim(s) and has never made such a tender.

- 35. A reasonable fee for the services of Albright's attorneys in this action is \$38,255.50 for services in the trial court; \$12,000.00 in the event Albright prevails on an appeal to a Court of Appeals; \$6,500.00 in the event Albright prevails on an application for writ of error which is not granted; and \$1500.00 in the event Albright prevails on an application for writ or error which is granted.
 - 36. Roffino died during the pendency of this action.
- 37. The Executrix is Roffino's personal representative and is sued in that capacity.
- 38. The Executrix did not prove any of her defenses by a preponderance of the evidence.
- 39. The Executrix did not prove her purported counterclaim by a preponderance of the evidence.
- 40. Peak did not perform the obligations under the Agreement which Roffino purported to assign and Peak purported to assume.
- 41. Peak's failure to perform the obligations under the Agreement which Roffino purported to assign and Peak purported to assume was a breach of the agreement between Roffino and Peak.
- 42. Peak's breach of the agreement between Roffino and Peak was a proximate cause of damages to Roffino (and ultimately to the Executrix).

43. The amount of damages to Roffino (and ultimately to the Executrix) proximately caused by Peak's breach of the agreement between Roffino and Peak is equal to the amount of damages and attorneys fees for which the Executrix is liable to Albright.

Conclusions of Law

- 1. The Court has jurisdiction of the parties and the subject matter of this action.
 - 2. Venue is proper in this Court.
 - The Agreement is ambiguous.
- 4. Albright proved his claim(s) by a preponderance of the evidence.
- 5. The Executrix did not prove any of her defenses by a preponderance of the evidence.
- 6. The Executrix did not prove her counterclaim by a preponderance of the evidence.
- 7. The Executrix proved her third-party claim by a preponderance of the evidence.
- 8. The Executrix (in her representative capacity) and the Estate of Roffino are liable for Albright's claims in this action.
- 9. In connection with the main action, Albright is entitled to recover from the Executrix (in her representative capacity) and from the Estate of Roffino (a) the sum of \$133,894.25 [comprised of \$76,975.00 representing damages; \$18,663.75, representing prejudgment

interest at the rate of six percent (6%) per annum from January 1, 1986, through January 15, 1990; and \$38,255.50, representing attorneys' fees for services in the trial court, based on forty percent (40%) of the recovery], together with interest on such amount or the unpaid balance of same, as the case may be, at the rate of ten percent (10%) per annum from the date of Judgment until paid in full by Defendant; and (b) the additional sums of \$12,000.00, representing attorneys' fees in the event Albright prevails on an appeal to a Court of Appeals; \$6,500.00, representing attorneys' fees in the event Albright prevails on an application for writ of error to the Supreme Court which is not granted; and \$1,500.00, representing attorneys' fees in the event Albright prevails on an application for writ of error to the Supreme Court which is granted, together with interest at the rate of ten percent (10%) per annum on such sums from the respective dates, if any, on which each becomes due until paid in full by the Executrix.

- 10. In connection with the counterclaim, the Executrix is not entitled to any relief.
- 11. In connection with the third-party action, the Executrix is entitled to recover from Peak a sum equal to the amount paid by the Executrix to Albright pursuant to the Corrected Judgment entered in this action together with interest on such amount or any portion of

same at the rate of ten percent (10%) per annum from the date(s), if any, on which same becomes due until paid in full by Peak.

- 12. All costs of court should be taxed against the Executrix and against the Estate of Roffino.
- 13. Execution and other appropriate writs should issue for the enforcement of the Corrected Judgment entered in this action upon request.

SIGNED this 28^k day of FEBRUARY, 1990.

CORRECTED JUDGMENT

On November 21, 1989, the Court called this case for trial. Plaintiff and Defendant appeared in person and through counsel. Third-Party Defendant appeared through a corporate representative. All parties announced ready for trial. A jury was not requested by any party, and all matters of fact as well as law were submitted to the Court. Plaintiff and Defendant presented evidence and argument, rested and closed. Third-Party Defendant did not present evidence or argument and was deemed to have rested and closed. After considering the evidence and the arguments and briefs of counsel, the Court announced his decision and directed that judgment be entered in accordance therewith.

It is, accordingly, ORDERED, ADJUDGED and DECREED as follows:

- In connection with the main action, Kirby Albright, Plain-1. tiff, shall have and recover from Mary Theresa Roffino, Independent Executrix of the Estate of A. P. Roffino, Deceased, Defendant, and from said Estate, (a) the sum of \$133,894.25 [comprised of \$76,975.00 representing damages; \$18,663.75, representing prejudgment interest at the rate of six percent (6%) per annum from January 1, 1986, through January 15, 1990; and \$38,255.50, representing attorneys' fees for services in the trial court, based on forty percent (40%) of the recovery], together with interest on such amount or the unpaid balance of same, as the case may be, at the rate of ten percent (10%) per annum from the date of Judgment until paid in full by Defendant; and (b) the additional sums of \$12,000.00, representing attorneys' fees in the event Plaintiff prevails on an appeal to a Court of Appeals; \$6,500.00, representing attorneys' fees in the event Plaintiff prevails on an application for writ of error to the Supreme Court which is not granted; and \$1,500.00, representing attorneys' fees in the event Plaintiff prevails on an application for writ of error to the Supreme Court which is granted, together with interest at the rate of ten percent (10%) per annum on such sums from the respective dates, if any, on which each becomes due until paid in full by Defendant.
- 2. In connection with the counterclaim, Mary Theresa Roffino, Independent Executrix of the Estate of A. P. Roffino, Deceased, Defendant, shall take nothing from Kirby Albright, Plaintiff.

... 756

- 3. In connection with the third-party action, Mary Theresa Roffino, Independent Executrix of the Estate of A. P. Roffino, Deceased, Defendant, shall have and recover from Peak Investments, Inc., Third-Party Defendant, a sum equal to the amount paid by Defendant to Plaintiff pursuant to Paragraph 1 of this Judgment, together with interest on such amount or any portion of same at the rate of ten percent (10%) per annum from the date(s), if any, on which same becomes due until paid in full by the Third-Party Defendant.
- 4. All costs of court are taxed against Mary Theresa Roffino, Independent Executrix of the Estate of A. P. Roffino, Deceased, Defendant, and against said Estate.
- 5. Execution and other appropriate writs shall issue for the enforcement of this Judgment upon request.
 - 6. All relief not expressly granted herein is denied.

SIGNAL RIDGE

Feburary 10, 1994

Mr. Rex Robertson MAHR Development Corp. 14755 Preston Road, Ste. 830 Dallas, Texas 75240

Dear Mr. Robertson:

The Signal Ridge Owners Association would like to strongly support your proposed Rockwall Harbor development that was presented to our homeowners this past Monday evening, February 7, 1994. We feel that our overall development is very positive for the City of Rockwall. We do have a few concerns that need to be addressed, solutions ageed upon incorporated in your plans, and the zoning and approvals granted by the City of Rockwall.

One of our concerns is the close proximity to Signal Ridge Condo units that you have proposed for your multi-family on tract 2. During our meeting with your consultants, it was brought out that Mr. Kirby Albright had a 40 foot ingress-egress easement located at the easterly end of your tract 2 adjacent to Signal Ridge. request is that this 40 foot easment be maintained in its current location as a heavily landscaped buffer area between your tract 2 and Signal Ridge. This to be accomplished knowning that some day in the future Mr. Albright may improve the easement as a private street for access to his approximately 6.7 acres of property. the time that you develop your tract 2, we request that you conform to building setbacks from this easement as if it was a front yard along a City of Rockwall street. During your presentation it was discovered that there is ongoing discussion with Mr. Albright as to the location of his access easement. We are dead-set against any movement whatsoever of this easement from its current location and by copies of this letter, we are so informing the City of Rockwall. If, by chance, you should purchase the 6.7 acre property from Mr. Albright, we would like for you to re-zone to a usage that will compliment and be in harmony with your tract 2 and Signal Ridge

The Signal Ridge home owners also have a few concerns as to the amount of additional traffic your overall development will add to Summer Lee Drive. You may not be aware of the fact that many of our residents at Signal Ridge are elderly. We estimate that the current traffic count in front of Signal Ridge is less than 1,000 trips per 24 hour period. When your development is completed

during the next few years, your estimates indicate a traffic count exceeding 10,000 cars per 24 hour period. The Signal Ridge home owners request that you install or pay the City of Rockwall to install two new traffic lights with traffic sensors and left turn arrows. One traffic light to be installed at the intersection of Summer Lee and Signal Ridge Place and the other at the intersection of Summer Lee and Ridge Road (FM 740). We feel very strongly that these traffic lights are necessary for us to maintain the quality of access to and from our homes at Signal Ridge. In the not too distant furture, it surely will become a nightmare for us to leave and return to our homes, and the real possibility of being injured or killed because of the amount of traffic on Summer Lee at the intersections of Signal Ridge Place and especially at Ridge Road. The completion of IH-30 and the proposed re-routing of Summer Lee connecting to the IH-30 service road will make Summer Lee a loop around and the route of choice to avoid the intersection of IH-30 and Ridge Road by all who live south of IH-30 in Rockwall County.

The home owners hereby request that we again meet with your consultants, Mr. Robert Pope and Ms. Marcie Diamond, to review and agree upon the incorporation of our requests in your final zoning, land covenants and development plans. We also request that you provide us with a copy of your zoning request, site plans and covenants in advance of your next meeting with the City of Rockwall.

In summation, we feel that our requests are most reasonable and will prove beneficial to the existing and future development of this area of Rockwall. Please give me a call should you have any questions. Signal Ridge looks forward to working with you and supporting your development efforts.

Sincerely,

Pamella Payton

Ms. Pamella Payton, President Signal Ridge Homeowners Association % Ms. Jeanne Fitzgerald 1000 Signal Ridge Rockwall, Texas 75087

Dear Ms. Payton,

Robert and I appreciated the opportunity to meet with you and the Signal Ridge Homeowners Association about our proposed rezoning request on behalf of Rockwall Harbor Joint Venture. We trust that the information we provided will help the Signal Ridge Homeowners understand our request.

The following is in response to some of the concerns expressed as that meeting:

- Traffic on and the extension of Summer Lee Drive
 - O The extension of Summer Lee is on the City of Rockwall's Major Thoroughfare Plan and we, at this point, have no control it alignment and its eventual connection with the I-30 Service Road. However, we will work with the City to delay its construction as much as possible.
 - O The proposed land uses in our zoning request will generate approximately one half the traffic than if the property was developed under the existing zoning.
 - We have preliminarily visited with the City about Traffic Control Devise at the intersection of Summer Lee and Signal Ridge Place. At this time the traffic generated from the existing developments in this area do not warrant the installation of a traffic control devise at this location. However, once the extension of Summer Lee is in place and the land in this immediate area is more fully developed, this issue can be revisited.

• Land Use Compatibility

- This request includes the rezoning of the $5.1\pm$ acre tract, abutting Signal Ridge (Tract 2) from commercial to medium density housing, with a maximum density of 14 dwelling units per acre which is similar to the development patterns existing in Signal Ridge Place.
- O The existing commercial zoning district could be developed for restaurants, hotels, and offices, and these uses could potentially be developed as close as 20 feet to Buildings 3, 4 and 5 of Signal Ridge Place under the Commercial District regulations of the Zoning Ordinance.

- In the event that the mutual access easement, as discussed at that meeting, is retained along the common property line between Tract 2 of the subject property and Signal Ridge Place, then a condition will be included in our zoning request that the minimum building setback from this property line will be 60 to 70 feet and that landscaping will be installed along this area to provide a visual screen between the two properties.
- Given that the existing buildings in Signal Ridge Place are located approximately 30 feet from this common property line, this restriction will result in a minimum separation between the proposed and existing housing of 90 to 100 feet. This compares favorably to the minimum building separation within Signal Ridge Place, whereas buildings are as close as $80 \pm$ feet, face to face.

We are still in the process of formalizing the proposed Planned Development Conditions and Concept Site Plan. Once these are finalized we will send you a complete set which will be the same as our submission to the City of Rockwall. Again, we appreciate your assistance in this matter. Please feel free to contact either Robert Pope or me if you have any questions or would like additional information.

Sincerely,

Marcie Diamond Senior Planner

Mr. Rex P. Robertson, President FORD ENTERPRISES, INC. - VENTURE MANAGER Rockwall Harbor Joint-Venture 14755 Preston Road, Ste 830 Dallas, Texas 75240

Dear Mr. Robertson:

Re: My meeting with you and Mr. Pope, your Land Planner, on 2-10-94 and in response to your follow-up letter concerning the possible sale to me of 14 acres out of your PD 7.

I have decided not to pursue the possibility of buying additional land that would include the 1982 designated thoroughfare plan to serve PD22 for the following reasons:

- 1. Prior to the City approving the Development of Signal Ridge they required a thoroughfare plan that would serve the entire Hillside area.
- 2. They required that right-of-way dedication be delivered to the City and filed for record by the City.
- 3. Harold Evans, Consulting Engineer delivered the ROW that extended from where Summer Lee now ends to PD22.
- 4. An official or employee failed to file the document for record.
- 5. Because of this failure I have not been able to develop my property except as Condos or Apartments.
- 6. The existing 60' easement that I only obtained after litigation has never been approved by P&Z or the Council and is not acceptable for a Conference Center Hotel.
- 7. There will remain a 40' strip in the form of an old County Road prescriptive easement that will be adjacent to Signal Ridge.
- 8. I donated ROW for Summer Lee along the 2 tracts shown on your plat as being owned by Providence Trust Co.

- 9. I paid a substantial sum of money to pay for Summer Lee to be wider than a regular Residential street in order for it to serve my property (PD22).
- 10. You are now asking the City to change your zoning on PD 7.

 Based on the above, I consider it unreasonable for anyone to suggest that I should be required to buy land that I do not need in order to obtain a satisfactory access to my property in order to develop it.

It is my opinion that the elected officials of Rockwall would like to see the mistake in not filing the ROW dedication corrected and for you to dedicate the ROW at the same time that you dedicate the ROW of Summer Lee for either PD 7 or PD 18.

Previous councils have approved this thoroughfare plan as evidenced by the site plan approvals in Ordinances 82-36 & 87-11.

Your granting this ROW dedication is in the public interest and general welfare of the City of Rockwall.

Your doing so will be appreciated.

Sincerely,

RE:

Kirby Albright

The purpose of this memorandum is to provide you with pertinent information with respect to Mr. Albright's contention that a road should be placed through our water-front property in Rockwall to access his adjacent 6.7 acres. Enclosed for your review are the following Items:

- (1) Agreement dated May 3, 1982, by and between Albright, A.P. Roffino and Signal Development Company;
- (2) Easement Agreement dated January 13, 1988, by and between State Savings & Loan Association of Lubbock and Albright;
- (3) Findings of Fact and Conclusions of Law dated February 28, 1990, with respect to the lawsuit filed by Albright against Mary Roffino, the executrix of the Estate of A.P. Roffino;
- (4) <u>Corrected Judgment</u> dated February 8, 1990, with respect to the judgment awarded by the Court to Albright re: his lawsuit against Roffino; and
- (5) Release of Judgment and Judgment Lien dated April 26, 1990, with respect to the payment and satisfaction of the judgment referenced in Item (4) above.

Ms. Julie Couch February 25, 1994 Page 2

The above-referenced documents can be summarized as follows. Item (1) was entered into by Albright, Roffino and Signal for the dedication of right-of-way and construction of a road from Ridge Road to the south service road of Interstate 30 (see Exhibit B attached thereto). Segment I (the existing completed portion) was completed in September of 1983 with the cost shared by all three parties to the agreement. Roffino was obligated to pay the entire cost of Segment V; Albright and Roffino agreed to share the projected cost of Segments II-IV as follows:

<u>Segment</u>	<u>Total</u>	Albright	Roffino
, II	\$ 52,500	\$13,125	\$39,375
III	38,500	28,875	9,625
IV	37,300	9,325	27,975
	The state of the s		1
Total	\$128,300	\$51,325	\$76,975

Before Segment I was completed and accepted by the City of Rockwall, Roffino sold the Roffino land to Peak Investments, Inc. Peak simultaneously subdivided the Roffino land and sold same to some 18 different parties whose purchase was financed by State Savings. Upon the subsequent default by the new owners, State Savings acquired the Roffino land through foreclosure. The majority of the Roffino land was eventually acquired by our group.

Subsequent to the foreclosure of the Roffino land, Albright pursued State Savings to honor Roffino's agreement with respect to Segments II-IV. State Savings refused but agreed to the existing 60 foot easement across our property to Albright's property. This easement agreement is reflected in Item (2). Please note that the easement agreement requires Albright to pay 100% of the cost of any street constructed across the easement.

Subsequent to the receipt of the easement from State Savings, Albright filed a lawsuit against Mary Roffino as executrix of the A.P. Roffino Estate (Mr. Roffino had since become deceased). The basis for the lawsuit was that Roffino had breached his agreement to dedicate right-of-way and share in the cost of Segments II-IV. In connection therewith, the Court awarded Albright a settlement of \$133,894 comprised of the following:

Damages	\$ 76,975
Prejudgment interest	18,664
Attorney fees	38,255
Total	\$133.894

Ms. Julie Couch February 25, 1994 Page 3

The \$76,975 of damages is apparently Roffino's agreed-to share of the projected cost of Segments II-IV. The summary of the lawsuit is reflected in Item (3).

As reflected in Item (4), the Court granted a judgment to Albright equal to the \$133,894 settlement awarded to Albright pursuant to his lawsuit against Roffino.

As reflected in Item (5), the judgment was, as of April 26, 1990, fully paid and satisfied in all respects.

In summary, Albright and Roffino had an agreement with respect to sharing the cost of Segments II-V. Upon Roffino's default, Kirby first pursued State Savings and obtained a 60 foot easement across our property to his property. Thereafter, Albright sued Roffino's surviving spouse and was awarded a \$133,894 judgment which has since been fully paid and satisfied.

I have enclosed 14 additional copies of this memorandum along with copies of Items (1)-(5). Please distribute one set to each member of the City Council and Planning & Zoning Commission.

Thank you.

Re: Approved PD 7 Thoroughfare Plan

Chairman James Greenwalt, and Members of Planning & Zoning Commission

Dear Sirs/Madame;

Enclosed is a copy of a letter that I wrote to Mr. Robertson concerning the need for them to comply with Rockwall's zoning ordinances.

It is obvious that his attempt to load the Commission down with copies of legal documents is to create a "smoke screen" as to the real issue.

If the Residents of Signal Ridge had understood that the 40 foot strip would remain, after the entrance to the Conference Center Hotel is constructed down the hill from them, they surely would not have wanted the road next to them. The entire 60' easement can be assigned to them as a green belt!

Leonard Texas Corporation & George J. Mahr loaned the money to purchase the FDIC note on the PD 7 property for 20% of the amount of the principal balance or 72¢ per square ft. in June 1991. The PD 7 ordinance was in place at the time of purchase and has not changed.

The "smoke screen" about the amount of money that I may have received from a lawsuit is not the issue. For the record, I received 44% of the amount suggested in Mr. Robertson's documents....this amounted to less than the amount of property taxes that I paid on this property (PD 22) from 1982 to 1993 when I could not sell or develop it because the entrance is not in a location acceptable to Hotels. My interest carry during those years was approximately \$70,000 per year.

I especially call your attention to 3 ordinances that are a matter of record with the City and have not changed as regards to the thoroughfare plan.

- 1. 82-36 Site plan shows Summer Lee extending through PD 7 to PD 22.
- 2. 83-18 Site plan shows entrance through PD 7 at same location as 82-36.
- 3. 87-11 Site plan shows the same basic thoroughfare as 82-36 with the following in Section I of the ordinance.

"The Site plan as approved in Ordinance 82-36 shall remain in effect only as it relates to the general locations of thoroughfares within the Tract".

The issue comes down to:

Are wealthy developers exempt from Rockwall's zoning laws? Or...are our ordinances to be enforced only against the little developers who can not afford a large staff of Planner/Architects and Managers.

Please administer our laws fairly and just..... equal to all.

Sincerely,

Kirby Albright

Re: KIRBY ALBRIGHT -- PD22

Ladies and Gentlemen:

Kirby Albright is the owner of PD22 in Rockwall. Albright has been a client of mine from time to time over the years. I represented him in litigation against the Estate of Anthony Roffino and State Federal Savings and Loan Association of Lubbock relative to an agreement made in the early 1980's between Albright and Roffino to provide ingress and egress to Albright's property.

During the course of the litigation State Savings was placed in receivership. The Federal Deposit Insurance Corporation was appointed receiver for State Savings and defended State Savings' interests in the lawsuit. By operation of law, the agreement between Albright and Roffino which was the subject of the lawsuit was not enforceable against the FDIC. Because further litigation against the FDIC would have been expensive and most likely unsuccessful, Albright made a settlement with the FDIC. That settlement provided for an easement across the Roffino property to Albright's property. That easement, however, was not sufficient to support commercial use of Albright's property but was simply the best deal he could get under difficult circumstances.

Albright also obtained a money judgment against the Roffino Estate in the lawsuit. The Roffino Estate, however, threatened to appeal the judgment and keep the case tied up in court for another year or two. Under these circumstances, Albright elected to settle with the Roffino Estate as well. Albright's share of the settlement proceeds, after payment of attorneys fees and litigation expenses, was less than \$60,000.

Mayor Alma Williams Rockwall Planning and Zoning March 8, 1994 Page 2

Albright has advised me that the current owner of the former Roffino tract is seeking to vacate the site plan which is currently in place and provides access to Albright's property. Albright has advised me that, in support of this application, the new owner of the Roffino tract is asserting or implying that Albright was somehow "made whole" in the Roffino Estate/State Savings litigation and should no longer be entitled to the access the current site plan provides. As should be apparent from the above narrative, Albright has in no way been "made whole" as a result of the Roffino Estate/State Savings litigation. Accordingly, in my view, it would be extremely unfair for the site plan which provides access to Albright's property to be vacated at this time.

If you need any additional information about the Roffino Estate/State Savings litigation or related matters, please let me know.

SUBJECT: Zoning Request by Lenmar Development Corporation

You members of the Rockwall City Council have a wonderful opportunity to render a decision which will influence orderly growth, traffic flow and development for the immediate use as well as the long term enjoyment with easy ingress and egress to attractive area in our city....which is highly visual from East bound Interstate 30.

Ridge Road (FM 740) is already traffic burdened and by adding the volume of cars as outlined in tonight's agenda....it behooves the Council to make a definitive judgement tonight to get these developers to commit the ROW and completion of Summer Lee from Ridge Road through all of this vacant land and collect it into the service road of I-30 which is under construction at this time.

We respectfully request your vote to resolve this Summer Lee problem once and for alltonight.

Dear Mr. Douphrate:

Please find attached the information listed below for submittal of a Preliminary Plat on proposed Mira Vista Addition.

- 1. One (1) Plat application and checklist.
- 2. Twenty (20) folded copies of the Preliminary Plat drawings.
- 3. Application fee in the amount of \$535.00.

We elected to prepare a second sheet to the Preliminary Plat which demonstrates the changes to existing public right-of-ways which will be altered concurrent to the final plat. We propose to construct 25' of the full pavement width on Summerlee Drive adjacent to the development north of proposed Vista Ridge Drive. The remainder of the pavement section is proposed to be built concurrent to development of the adjacent properties west of the roadway.

Please contact us if there is any additional information that you will need for this Preliminary Plat submittal.

Dear Mr. Albright:

The purpose of this letter is to set forth in writing our agreement with respect to the above-referenced matter. In connection with the rezoning of PD-7 and PD-18, the City Council of Rockwall will require Rockwall Harbor Joint Venture ("RHJV") and/or LenMar Development Corporation ("LenMar") to dedicate to the City of Rockwall right-of-way to (i) extend Summer Lee Drive to the south service road of Interstate 30 along the approximate lay-out as shown on the attached Exhibit "A" and (ii) provide access from Summer Lee Drive to your property along the approximate lay-out as shown on the attached Exhibit "A".

In connection with our dedication to the City of Rockwall of the above-referenced rights-of-way and in consideration of the benefit to be derived by you from such dedication, you agree to the following:

(1) The ingress/egress easement as recorded in Volume 382, Page 205 of the real property records of Rockwall County, Texas will be officially abandoned by you, Albright Properties and/or your successors and assigns at no cost to RHJV, LenMar and/or their successors and assigns and such abandonment shall be in a form acceptable to RHJV and shall be recorded in the real property records of Rockwall County, Texas at or prior to the dedication of the rights-of-way referenced herein; and

FROM:

Dan C. Boutwell, AICP

SUBJECT:

P&Z 93-52-PP - Preliminary Plat of Mira Vista

DATE:

April 11, 1994

Background

This preliminary is contains PD 18 and a portion of PD 7, which were recently amended. The preliminary proposes to develop 92 single family lots at a minimum lot size of 10,000 square feet, with the majority being substantially larger than that.

Comments

We have reviewed the above referenced application and provide the following comments and recommendations:

- The applicant has previously indicated that two streets, which intersect with Summer Lee Drive, will eventually be provided. These two streets should be dedicated at this time and included in this subdivision. These streets are:
 - a. located in the vicinity of the intersection of Vista Ridge Drive and Summer Lee, and serving the Albright property.
 - b. and at the northernmost corner of the subdivision in the vicinity of lot 14, block "B", providing access to I-30 frontage road.
- 2. The applicant has indicated an area designated for park dedication. This area should be designated as "open space". The park board will determine if this area is acceptable to be included within the park system, prior to time of final platting.
- 3. The applicant is proposing to incorporate and abandon existing public right-of-way with this final platting. This is an acceptable action and is consistent with the the approved street system as indicated in the amended PDs. However, the applicant should provide documentation that adjacent property owners (Lakeside National Bank and Mr. George R. Roland), which are affected by this action, are in agreement with this action.
- With the exception of the above listed items, the preliminary is in agreement with the approved layout of streets and lots as presented in the amended PDs.

Re: Proposed Mira Vista Addition

Dear Commissioners:

At your last work session, there was some concern voiced regarding the impact of the proposed development on the adjoining properties. Following that meeting we authorized our engineers to prepare sketches showing two alternatives for development of the property into patio home lots as currently zoned. We submitted these sketches to representatives of both owners for their review. Due to time constraints, Lakeside National Bank has not been able to review the drawings and give us their input; they have indicated they should have a response by early next week.

It appears that we may be able to have the issue resolved prior to your next work session. Please, therefore, accept this letter as our request that you table action on the plan until your April 28 work session. We request that, should we reach agreement with our neighbors prior to that meeting, you schedule the item for formal approval at that time.

Thank you for your consideration of this request.

RE: Lago Vista Landscape Agreement

Per your request, I have prepared the attached draft of the "Right-of-Way Landscape and Irrigation Agreement" for the subject project. This document is based on the one used by the City of Plano for similar installations. In order to expedite the approval process, I am circulating the draft to Rex Robertson and his attorney, Jerry Quast for simultaneous review.

Since we hope to begin installation of the landscaping immediately, we would appreciate anything you can do to expedite the process.

Please let me know if you have any questions.

RIGHT-OF-WAY LANDSCAPE AND IRRIGATION AGREEMENT

STATE OF TEXAS	
)(
COUNTY OF ROCKWALL)(

KNOW ALL MEN BY THESE PRESENTS:

THIS AGREEMENT is entered into this ______ day of _______, 19____, by and between the CITY OF ROCKWALL, TEXAS, a municipal Corporation (hereinafter referred to as "City"), and LAGO VISTA PARTNERS, LTD., a Texas Limited Partnership (hereinafter referred to as "Developer"), both acting through their duly authorized officers and employees.

WITNESSETH:

WHEREAS, Developer will install certain landscaping and irrigation improvements in a portion of the right-of-way of Summer Lee Drive within the Lago Vista Addition, an addition to the City of Rockwall, Rockwall County, Texas, as shown on the attached drawing marked Exhibit "A" and made a part hereof, and

WHEREAS, City, under the terms and conditions set forth herein, is agreeable to Developer installing and maintaining the landscape and irrigation improvements (hereinafter called "Improvements") in that certain portion of right-of-way of Summer Lee Drive:

NOW, THEREFORE, for and in consideration of the covenants, obligations and undertakings to be performed by each of the parties to this Agreement, the said parties do hereby agree as follows:

- 1. Developer shall install and maintain the Improvements within that certain portion of the right-of-way of Summer Lee Drive within the Lago Vista Addition to the City of Rockwall, Texas, as shown on Exhibit "A".
- 2. Prior to installation of the Improvements, Developer shall submit seven (7) copies to the City of the complete plans and specifications for such improvements, which plans and specifications have been prepared by a landscape architect or a practicing professional in the field. The plans and

Right-of-Way Landscape and Irrigation Agreement Page 2

specifications shall be drawn to a known scale, including dimensions and distances, and shall clearly indicate the location, type, size and description of all proposed landscape materials and total quantities. In addition, the plans and specifications shall clearly indicate the configuration, location, type, and total number of heads and controllers to be used in the irrigation system for all landscaped areas. Any signage, benns, walls, structures, or other improvements existing or to be installed or constructed shall be shown on the plans and specifications. All such improvements or structures shall comply with all applicable ordinances of the City.

3. Upon submission of the plans and specifications, the City shall determine if the landscaping and irrigation proposed is of such quality as to improve and enhance the site and its surrounding areas as to be of minimal maintenance requirements. To this end, the City shall have the right to require such revisions to the original plans and specifications as are necessary to achieve the standards set out above.

Any installation of landscaping materials and/or irrigation facilities within rights-of-way under this agreement shall be in full compliance and accordance with the plans and specifications thereof approved by the City.

- 4. The primary landscaping materials to be used by the Developer shall be trees, grass and shrubbery.
- 5. The Developer shall furnish or cause to be furnished, at its expense, all labor, equipment, accessories and services necessary to install all landscaping materials and irrigation facilities in accordance with the approved plans and specifications.
- 6. The City shall inspect such installation and shall require such steps to be taken as are necessary to cause proper installation to be accomplished.
- 7. Upon completion of the installation to the satisfaction of the City, written confirmation thereof shall be furnished to the Developer.
 - 8. Developer, its representatives, successors or assigns, at its sole expense, shall furnish all

labor, materials, equipment, accessories and services, necessary to maintain irrigation equipment in proper working order, and all plant material installed under this Agreement in a healthy, vigorous growing condition, replacing any plant materials when and as it becomes damaged, unsightly or dead, for a period of two (2) years after delivery of the written confirmation mentioned in section 7 of this Agreement. Developer shall at its sole expense provide water for the purpose of irrigation. During this period, all landscaping materials and irrigation equipment shall be and remain the property of Developer.

- 9. After the written confirmation referred to above, and during the period of Developer's responsibility for maintenance, City shall periodically inspect the areas landscaped and irrigated under this Agreement, to determine that such areas are being properly maintained by the Developer. If, upon such inspection, City finds that Developer is not properly maintaining such areas. City shall so notify Developer in writing, specifying the deficiencies. If Developer does not remedy such deficiencies within fifteen (15) days following receipt of such written notice, City shall have the option of performing the necessary maintenance work itself and billing Developer for all costs incurred whether by independent contract or by force account. Developer shall remit all payments to City under this Section within five (5) days of receipt of a statement from the City.
- 10. Prior to the conclusion of the two (2) year maintenance period, Developer, its representatives, successors, or assigns, upon written notice to the City, shall have the option to extend said period two (2) additional years. Sixty (60) days prior to the conclusion of the two (2) year maintenance term, Developer shall notify the Director of Parks and Recreation of the City in writing of its desire to extend the maintenance period for an additional two (2) year period upon the same terms and conditions as set forth herein, or of Developer's intention to terminate this agreement and end its maintenance responsibilities for the right-of-way. If no such extension option is exercised by the Developer, its representatives, successors or assigns, all such landscaping materials and irrigation equipment shall become the property of the City upon expiration of the original term.
- 11. Developer shall establish and provide all maintenance funds and maintenance bonds for the term of this Agreement or any extension thereof as are required under the regulations of the City.
 - 12. At the time of turning maintenance responsibilities over to the City, Developer, at its sole

This Section applies to all aspects of the maintenance and all areas landscaped and irrigated under this Agreement, including specifically, but not limited to, replacement of damaged or dead landscaping materials and replacement or repair of irrigation equipment.

- 13. Developer, its representatives, successors, or assigns hereby covenants and agrees that no claim loss, cause of action, suit or other action for damages resulting from death or personal injury to any of the above, or damage to personal property belonging to any of the above, and based upon in any manner the landscaping, irrigation, and maintenance of the said right-of-way will ever be instituted by Developer, its representatives, successors or assigns against the City of Rockwall, its agents or employees.
- 14. Developer, its representatives, successors, or assigns hereby covenants and agrees to indemnify and hold the City of Rockwall, its officers, agents and employees harmless from and against any and all claims, losses, suits, causes of action or demands of any nature whatsoever attributable in any way to the installation and maintenance of the landscaping and irrigation equipment in said right-of-way arising during the term of this Agreement.
- 15. This Agreement and all requirements hereunder may be modified or amended only by written instrument executed by the Developer and the City, their representatives, successors or assigns.
- 16. The laws of the State of Texas shall govern the interpretation, validity, performance, and enforcement of this Agreement, and Rockwall County shall be the exclusive venue for the bringing of any action to enforce the terms and conditions of the Agreement.

CITY OF ROCKWALL Planning and Zoning Agenda

Agenda Date:

March 10, 1994

Agenda No: III. A.

Agenda Item:

<u>P&Z 93-52-Z</u> - Hold Public Hearing and Consider Recommending Approval for a Request from LENMAR Development Corp. for an Amendment to PD-7 and PD-18 to Provide for a Change in Approved Land Uses to Include Single Family, Zero Lot Line, Multifamily Condominiums, and Commercial Uses and Approval of a Preliminary Plan, Area Requirements, and Special Conditions on approximately 80 acres on Land Located South of I-30 and West of FM-740

Item Generated By:

Applicant, Lenmar Development

Action Needed:

Hold public hearing and take any necessary action.

Background Information: The applicant has requested a change in zoning to amend PD-7 and PD-18 to combine those into one PD along with a commercial tract located along the I-30 Service Road. The request contains the following items:

- 1. To change the land use east of Summer Lea Drive, which contains a portion of PD-18 and a portion of PD-7, from Zero Lot Line, Townhouse, and Commercial to Single Family development meeting the SF-10 standards. This area contain approximately 38.8 acres.
- 2. To change the land use on the west side of Summer Lea Drive adjacent to the Signal Ridge development, which is currently PD-7 and zoned for Commercial uses, to Zero Lot Line/Condominium development. This tract, which contains approximately 5.1 acres, would be developed as either zero lot line meeting the City's zero lot line standards, or condominium not exceeding 14 units per acre and meeting the restrictions of both the current multifamily district and the conditions proposed by the applicant in terms of design. The adjacent Signal Ridge development is constructed to a density of approximately 13 units per acre.
- 3. To change the land use on the west side of Summer Lea Drive adjacent to the above tract, which is currently PD-7 and zoned for Commercial uses, to Zero Lot Line/Condominium development or commercial uses. This tract, which contains approximately 9.7 acres, would be developed as either zero lot line meeting the City's zero lot line standards, condominium not exceeding 14 units per acre and meeting the restrictions of both the current multifamily district and the conditions proposed by the applicant in terms of design, or as commercial development.
- 4. To amend the current approved road layout, which was approved as a part of the approval of PD-7, to relocate a proposed commercial street from its current location between the two tracts identified as tract 2 and tract 3A to the existing road easement adjacent to Signal Ridge. When the road was originally approved it was designed to provide access to PD-22 and subsequently, the Council approved a site plan for a hotel/conference center on PD-22 with the access as approved in PD-7. Included in the packet are a number of documents submitted by both the applicant and the owner of PD-22 in regard to legal action that has occurred in the past on this road. The planning decision that needs to be made is whether or not to keep the road in its current location or to approve the request to move the road next to Signal Ridge.

From a planning standpoint the road in its current location provides a good separation from the possible mix of uses that are proposed in this area. It also conforms to the existing site plan that is approved for PD-22. We see no overriding justification from the developer as to a reason for relocating the road. Summer Lea is shown to follow the alignment that was previously approved by the City Council with the access to the Service road occurring east of the new off ramp.

The application is very thorough in terms of identifying the conditions and area requirements that would be met and we have no specific recommended changes to those conditions. The proposed land uses, if approved, are

The meeting was called to order at 7:00 p.m by James Greenwalt with the following members present; Art Ruff, Ross Ramsey, Van Ewing, Pat Friend, Terry Raulston, and Ginger Baugh.

10 II. PUBLIC HEARINGS

PROVIDE FOR A CHANGE IN APPROVED LAND USES TO INCLUDE SINGLE FAMILY, ZERO LOT LINE, MULTI-FAMILY CONDOMINIUMS, AND COMMERCIAL USES AND APPROVAL OF A PRELIMINARY PLAN, AREA REQUIREMENTS, AND SPECIAL CONDITIONS ON APPROXIMATELY 80 ACRES OF LAND LOCATED SOUTH OF I-30 AND WEST OF FM-740

The Chairman opened the public hearing.

Robert Pope, Richard Ferrara, and Mary Diamond representing Lenmar Development had originally requested approval to amend Pd-7 and PD-18 to combine those into one PD along with a commercial tract located along I-30 Service Road. Mr. Pope requested to withdraw the request for tracts 2,3, and 3A at this time and continue only with tract 1 for the single family development for 10,000 square foot lots.

Don Brown, 3135 Bourbon Street Circle asked question about the multi-family zoning.

Lee Wilson, owner of a tract of land asked about the existing road to this property.

Kirby Albright, 2125 Ridge Road explained a memorandum he wrote to Mahr Development Corp. on February 25,1994 regarding entrance onto PD-22.

The public meeting was closed.

After much discussion, Mr. Friend made a motion to approve the request from LENMAR Development Corp. for an amendment of PD-7 and PD-18 only for Tract 1, to be changed to single family as requested by the developer, with no changes to be made to the portion of PD-7 west of Summer Lee listed as tract 2,3, and 3A.

Mr Ruff seconded the motion to approve the request. The motion was voted on and passed unanimously.

94-5-Z HOLD PUBLIC HEARING AND CONSIDER RECOMMENDING APPROVAL OF A REQUEST FROM MONTY OAKLEY FOR AN AMENDMENT TO THE PD-14 PLANNED DEVELOPMENT DISTRICT TO ALLOW A PART TIME RESIDENCY AS AN ACCESSORY TO A PERMITTED USE LOCATED AT 1300 ROCKWALL PARKWAY.

50

The Chairman opened the public hearing.

Mr.Douphrate recommended denial of the request due to the fact that PD-14 does not allow part time residential as an accessory use.

55

75

80

The applicant was not present. Mr. Ewing made a motion to table to continue the public hearing until the next regularly scheduled meeting. Mr. Ruff seconded the motion. The motion was voted on and passed unanimously.

- 60 93-39-CUP/SP HOLD PUBLIC HEARING AND CONSIDER RECOMMENDING APPROVAL OF A REQUEST FROM TOM SHIREY FOR CONDITIONAL USE PERMIT TO ALLOW A MAXIMUM OF OUR DISPENSERS AS AN ACCESSORY TO A PERMITTED RETAIL USE ON A TRACT OF LAND LOCATED AT SH-205 AND FM-552, AND APPROVAL OF A SITE PLAN.
- The Chairman opened the public hearing.

Mr. Douphrate outlined the request and recommended approval of the Conditional Use Permit and Site Plan.

There being no one else to speak, the public hearing was closed.

After much discussion Mr.Ruff made a motion to approve the request from Tom Shirey for a Conditional Use Permit to allow a maximum of four dispensers as an accessory for a permitted retail use and a site plan for property located at SH-205 and FM-552. Mr.Raulston seconded the motion. The motion was voted on passed unanimously.

93-54-PP/Z/FP HOLD PUBLIC HEARING AND CONSIDER RECOMMENDING APPROVAL OF A REQUEST FROM JOE HOLT FOR A CHANGE IN ZONING FROM "GR" GENERAL RETAIL TO "SF-10" RESIDENTIAL DISTRICT CLASSIFICATION ON A TRACT OF LAND LOCATED NORTH OF DALTON ROAD AND WEST OF SH-205, AND CONSIDER APPROVAL OF A FINAL PLAT FOR HARLAN PARK, PHASE II.

The Chairman opened the public hearing.

Mr. Douphrate outlined the request and recommended approval of the request for zoning change and approval of the final plat provided the engineering plans are revised in accordance with Staff's review comments.

The Chairman closed the public hearing.

Mr. Friend made a motion to table action until the next scheduled meeting.

Mr. Ewing seconded the motion. The motion was voted on and passed unanimously.

95 94-6-RP HOLD PUBLIC HEARING AND CONSIDER RECOMMENDING APPROVAL OF A REQUEST FROM JOETTA WELCH AND DUNCAN CURRIE FOR A REPLAT OF LOTS 1-R AND 2-R, BLOCK A OF 18-1 OF CHANDLERS LANDING TO COMBINE TWO LOTS INTO ONE.

The Chairman opened the public hearing.

100

10

Mr.Douphrate outlined the request and recommended approval.

Jim Stuwart, builder addressed the Commission and explained that the applicants which to combine the lots to build a home.

105

110

There being no one else to speak the public hearing was closed.

Mr.Friend made a motion to approve the request from Joetta Welch and Duncan Currie for a replat of lots 1-R and 2-R, block A of 18-1 Chandlers Landing to combine two lots into one. Mr.Ramsey seconded the motion. The motion was voted on and passed unanimously.

III. ACTION ITEMS

94-1-Z/PP/SP DISCUSS AND CONSIDER RECOMMENDING APPROVAL OF A SITE
PLAN/PRELIMINARY PLAT FOR THOMAS HAACK ON A TRACT OF LAND LOCATED SOUTHSIDE OF
I-30 SERVICE ROAD AND WEST OF HWY 549.

Mr.Douphrate outlined the request and recommended approval with the conditions.

- Mark Smith, Attorney for the applicant addressed the Commission to answer questions and explain the applicants intention for this request. He indicated plans at this time are to plat only tract I with a right-of-way dedication along the east boundary line and enter into a facilities agreement to defer construction of the concrete street improvements until such time as the street may be constructed. He indicated that they wanted to use the right of way as a driveway, paving it with gravel for a period of 2 years and then upgrading to City driveway standards. The existing tract would be replatted and combined as one lot with the rear parcel.
- After much discussion Mr. Greenwalt made a motion to recommend approval of the request from Thomas Haack for a site plan and preliminary plat for a tract of land located on the southside I-30 service road and west of Hwy 549 with a variance to allow a gravel drive as temporary access to the rear building which will be removed when the concrete/asphalt drive is constructed not to exceed 2 years form the date the property is replatted. The property owner will escrow

25% of the cost to improve one-half of the collector when the city deems the construction of the commercial collector is warranted. Mr.Friend seconded the motion. The motion was voted or and passed unanimously.

City of Rockwall Planning and Zoning Agenda

Agenda Date:

April 28, 1994

Agenda Item:

P&Z 93-52-PP - Discuss and Consider Recommending Approval of a Request From LENMAR Development Co., for a Preliminary Plat for the MIRA Vista Addition, a 40 Acre Subdivision Located South of I-30 and West of FM-740.

Item Presented By:

Applicant, LENMAR Development Co.

Action Needed:

Discuss and Consider recommendation for Approval.

Background Information:

The applicant withdrew his application from the April 14, 1994 agenda in order to revise a portion of the plat's boundary. Please recall their original submittal encroached onto a portion of PD-19 without consent of the property owner, Lakeside National Bank. Submitted herein is a revised layout which eliminates any encroachment onto the PD-19 tract. I met with Mr. Lynn McCreary, President of Lakeside National Bank, on Tuesday, April 26, 1994. He stated this layout is acceptable but would consider a through alley along the west property line provided that the only encroachment to occur would be in the 30' radius area in the northwest corner of the 4.0 acre tract.

The plat as presented provides access to the north cemetery through Shady Oaks Circle. Since this cemetery is still active it would be most desirable to retain the current access to the cemetery by use of Cemetery Road. Lot 16 will need to be revised by shifting the north property line outside of Cemetery Road. The length of Shady Oaks Circle will need to be reduced.

The applicant will need to provide the legal descriptions necessary for the abandonment of the Lake Ridge Estates right-of-way prior to submitting the final plat. The applicant must also provide, as part of the final plat, the right-of-way dedications which were required by the Council when the zoning was amended for both PD-7 and 18. These two dedications are listed below:

- 1. A 50' right-of-way which will be in conformance with the original site plan approved and adopted under Ordinance 82-36.
- 2. Right-of-way for the commercial collector indicated on the concept plan and connecting the IH-30 service road with Summer Lee.

As mentioned in the previous memorandum, the Park Board is reviewing the proposed park land dedication and will provide their recommendation to the Council at a later time. Recommendation:

Staff recommends approval of the preliminary plat provided the following conditions are met:

- 1. The applicant maintain a 40' right-of-way for Cemetery Road.
- 2. The applicant provide screening between the proposed alley and Lots 12 & 13 of Lake Ridge Estates.
- 3. The offsite right-of-way dedications be provided with the final plat submittal.
- 4. The legal description be provided to staff for abandonment of the existing Lake Ridge Estates right-of-way
- 5. Allow the developer to provide a through alley layout along the west side of PD-19 causing a corner clip encroachment onto PD-19. Lakeside National Bank in turn will dedicate this corner clip as public right-of-way.

Agenda Date:

July 14, 1994

Agenda Item:

P&Z 93-52-FP Hold Public Hearing and Consider recommending approval of a request from LENMAR Development Company for a vacation of a portion of Lake Ridge Estates and Discuss and Consider Approval of a Final Plat for Lago Vista Addition, a 40-acre subdivision located west of FM-740.

Item Presented By:

Applicant, LENMAR Development Co.

Action Needed:

Discuss and Consider recommendations for Approval.

Background Information:

The developer has modified the plat so that all of the conditions outlined in the preliminary review have been implemented with exception to the corner right-of-way clip located on PD-19.

I contacted Mr. Lynn McCreary on Tuesday to see if he had executed the easement prepared and submitted to him by the Developer's engineer. Mr. McCreary informed me that the property was now under contract and he has therefore elected not to sign the easement. The prospective buyer of the property has a 90-day time period to purchase or abstain on the purchase of the property. Mr. Pope representing LENMAR was also notified on Tuesday of Mr. McCreary's position on this issue.

We have scheduled this agenda item to be submitted to the Council on August 1, 1994. Mr. Pope in the meantime will be contacting the prospective buyer of this PD-19 property to try to resolve this matter.

The Developer will also be required to escrow a portion of the funds required to upgrade the Signal Ridge Lift Station which will serve this development once completed.

Staff recommends approval of the final plat provided the following conditions are met:

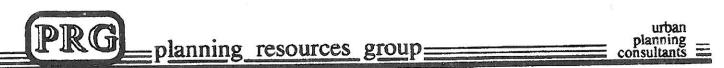

- The Developer enter into a facilities agreement outlining a) the pro-rata funds required to upgrade the Signal Ridge Lift Station and b) requirements to screen the proposed alley from Lots 12 &13 of Lake Ridge Estates.
- The Developer provide to staff an executed easement from the owner of the PD-19 tract prior to submission of plat to Council.
- The Developer's Engineer revise the engineering plans according to the comments outlined by the City Engineer.

SUBJECT:

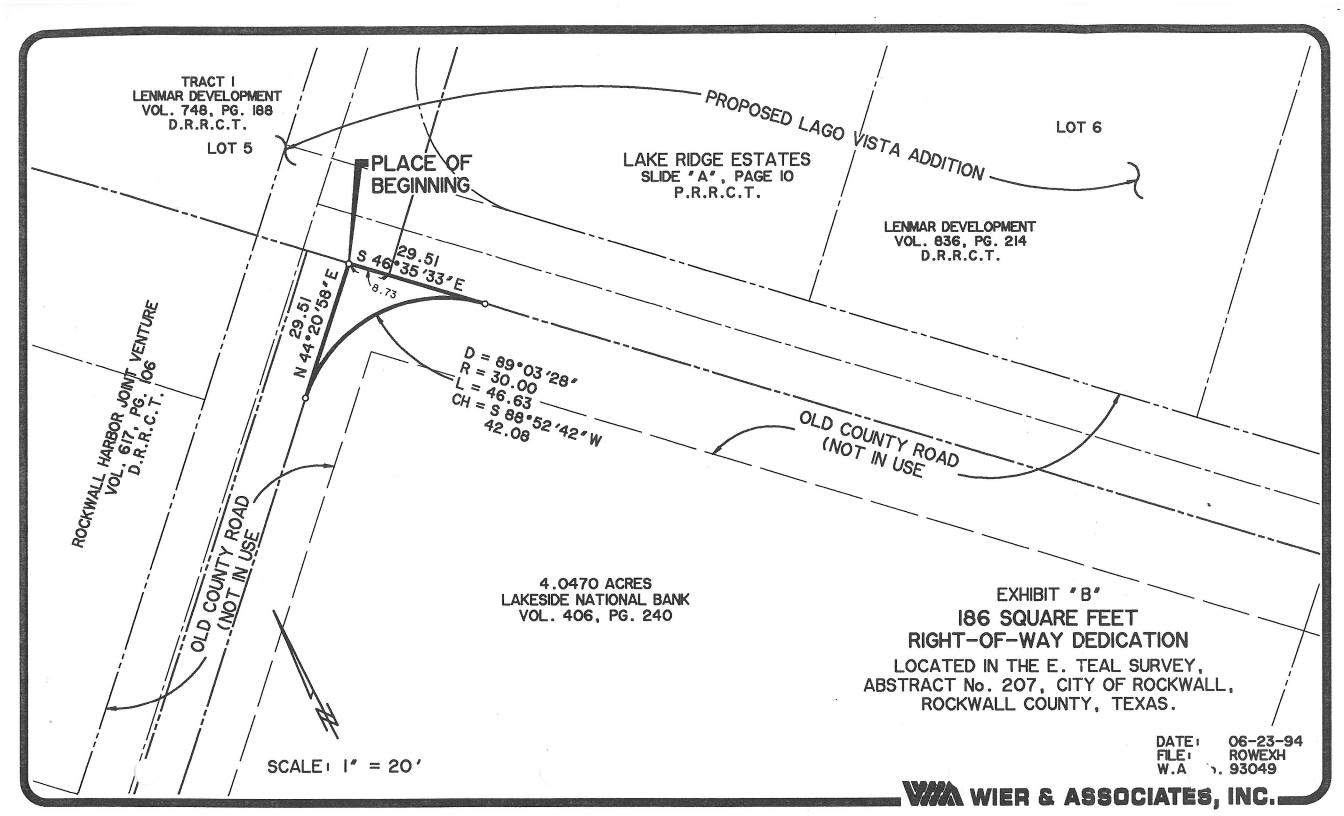

PZ 93-52-FP (Lago Vista Addition)

DATE:

July 12, 1994

The applicant is requesting approval of a final plat of Lago Vista Addition. The submitted final plat is in agreement with the previously approved preliminary plat. A number of questions and comments were provided at the time of preliminary platting. However, the applicant has appropriately addressed all of these questions and comments. This Final Plat is in compliance with the Subdivision Regulations for the City of Rockwall, and we would recommend approval of the Plat as submitted.

If you have any comments or questions please do not hesitate to contact me.

<u>P&Z 94-2-Z/SP</u> Hold a Public Hearing and Consider a Request from Los Prados Development for Approval of an Ordinance Granting a Zoning Change from "MF-15" Multi-Family 15 to "SF-7" Single Family 7 District Classification (1st reading) and Consider Approval of a Concept Plan for Property Located on the North Side of Yellowjacket Lane, West of SH-205 and Take Any Necessary Action

90

85

Couch outlined the two requests of the applicant regarding the change of zoning and the concept plan request. She outlined the fact that the current land use plan does not reflect the proposed use. She indicated that amendment of the plan could be considered at the time the plan is updated, which is scheduled to begin this summer. She also explained that in conjunction with

the concept plan application, the proposed developers requested a partial waiver regarding alley construction along a portion of the development due to natural drainage and topography of the area. Mayor Williams opened the public hearing. Brad Myers of Carter & Burgess, representative of Los Prados Development, addressed the Council and requested approval of the zoning change from multi-family to single family district classification. He indicated that the concept plan would include preserving the trees and open area in the heavily wooded flood plain. He outlined that during the platting process, the wooded area would either be dedicated to the city as parkland or incorporated into the individual lot development as applicable. He emphasized that the request for a partial waiver on alley construction was due to the natural vegetation and topography of the area.

...

Bob Shelton, Los Prados Development, answered questions of homesite pricing and proposed builders in the area. As there was no one else wishing to address the Council, the public hearing was closed.

Morgan made a motion to approve the change in zoning from Multi-Family 15 to Single Family 7 for property located on the north side of Yellowjacket Lane, west of SH-205 and to grant approval of the concept plan as presented. The motion was seconded by Pappa. The motion was voted on and passed unanimously.

<u>P&Z 93-52-PP</u> Discuss and Consider Approval of a Request from LENMAR Development Co. for a Preliminary Plat for the Mira Vista Addition, a 40-acre Subdivision Located South of IH-30 and West of FM-740 and Take Any Necessary Action

Couch outlined the request submitted by LENMAR Development and clarified the issue regarding encroachment rights on adjacent land owned by Lakeside National Bank. She indicated that an agreement had been reached by all parties concerned.

Following a lengthy Council discussion, Welborn made a motion to approve the preliminary plat for the Mira Vista Addition subject to the following conditions: 1) a dedication of right-of-way from the vicinity of Vista Ridge and Summer Lea to serve "PD-22"; 2) a dedication of right-of-way and construction of a two-lane minimum roadway from the northern most corner of the subdivision near Lot 14, Block F be provided to access IH-30 service road; 3) a dedication of open space to be considered as parkland subject to acceptance by the Park and Recreation Board; 4) that the 40' cemetery road right-of-way from FM-740 be maintained, that screening between Lots 1-6, Block F and the existing roadway be provided between those lots and the Wilson property; 5) the applicant identify what public right-of-way is to be abandoned and what is to be incorporated into this preliminary plat; 6) the alley adjacent to Lakeside Bank property be constructed and a written agreement attained from Lakeside Bank and other property owners; and 7) the applicant include a written statement releasing the city from liability on the cemetery and that the developer clean up and fence in the cemetery property adjacent to the development contingent on the written permission from the caretakers or cemetery owners. The motion was seconded by White and passed unanimously.

Discuss and Consider Entering Into a Contract with Chiang, Patel & Associates Regarding Design and Construction for Supplemental Water Treatment Facilities and Take Any Necessary Action

Couch reviewed the ammoniation process requested for the supplemental water treatment facilities. She indicated to Council that staff had concerns regarding the level of THM maintained in the current water system and the impact the upcoming warmer summer months could have on this situation. Councilmember Hatfield discussed with Council the recent meeting he held with Congressman Ralph Hall in regards to this unfunded federal mandate. He stated that Congressman Hall recommended meeting with the EPA to discuss the situation and to have the ability to retest. Morgan made a motion to table any action on this item until after a meeting with the EPA has been conducted and a report submitted to Council for additional consideration. The motion was seconded by Wilson. The motion was voted on and passed unanimously.

Discuss and Consider Recommendation of Parks & Recreation Board to Participate in the Operating Expense for a Friday night Open-Gym Program and Take Any Necessary Action

Crowley outlined the recommendation of the Park and Recreation Board. He indicated that due to the pivotal age of the group that may be in need of recreational alternatives, the open-gym program would be provided at the middle school and would involve youth entering and/or leaving the 6th, 7th, and 8th grades. The program's staff would include a school district employee, a volunteer parent, and a police officer. Crowley notified Council that the agreement would provide funding not to exceed \$1,000 for the summer implementation of this program. After Council discussion, Morgan made a motion to approve the Park Board recommendation to participate in the open-gym program and to fund the program in an amount not to exceed \$1,000. Wilson seconded the motion. Following Council discussion, the Mayor asked for a call of votes. The motion passed unanimously.

Discuss and Consider Award of Bid for Annual Mowing Contract and Take Any Necessary Action

Couch recommended the bid be awarded to the low bidder, Insta Lawns. Welborn made a motion to approve the bid as submitted and award the contract to Insta Lawns as recommended by staff. Morgan seconded the motion. The motion was voted on and passed unanimously.

Discuss and Consider Approval of a Contract with the 4thfest Committee for Participation in Funding of a 4thfest Event in Rockwall and Take Any Necessary Action

Couch indicated to Council that the City was still in the process of finalizing the contract for the funding of \$5,000 and the continuation of the program. It was noted that the \$5,000 were funds accumulated by the program. Couch stated that this item would be placed on a future agenda when the contract is completed.

Appointment with Economic Development Planning Commission Regarding Presentation of Report and Take Any Necessary Action

Bob Holliman, Chairman of the EDPC, addressed Council and introduced the members of the commission. Mssrs. Coleson and Mishler presented the history of economic development planning efforts for the City. Ms. Barstow and Mr. Moscarello outlined the process used by the current Economic Development Planning Commission in developing their recommendations and described the background of the membership. Mr. Wight examined the need for economic development planning for the city. Mssrs. Lofland and Self presented recommendations which

- consisted of the following three phases: 1) to conduct an economic development summit led by a professional facilitator, 2) to develop a vision for economic development for the City, and 3) to formulate the strategic and implementation plan to provide economic development. Mr. Martin summarized the presentation and requested that the Council approve the funding for Phase 1 and 2 at this time with funding for Phase 3 to be decided upon after the completion of Phases 1 and 2.
- After considerable discussion, Hatfield made a motion to approve Phase I and Phase II of the recommendation. Morgan seconded the motion. Following Council discussion, the motion passed unanimously.
- Hear from Reed-Stowe Regarding Lone Star Gas Rate Increase and Consider Approval of an Ordinance Granting a Rate Increase for Lone Star Gas and Take Any Necessary Action

Lone Star Gas requested a delay in order to review the information submitted by Reed-Stowe Company. Morgan made a motion to table this item to the next regular meeting. The motion was seconded by White. The motion passed unanimously.

Appointment with Rick Horton of D.R. Horton, Inc. Requesting a Sign Variance and Take Any Necessary Action

White exited the room citing a potential conflict of interest. Rick Horton addressed Council seeking a sign variance in the Caruth Lake subdivision due the hardship of visibility and attractiveness of the sign if placed at ground level. Mr. Horton requested the sign be extended 6' above the set standard. Morgan made a motion to grant a variance of 3½' in height for a period not to exceed eighteen (18) months. The motion died for lack of a second. Wilson made a motion to deny the request for the sign variance. Luby seconded the motion which passed unanimously. Councilmember White returned to the meeting.

Appointment with Wyatt Company to Present a Report Regarding Self-Insurance Funding and Take Any Necessary Action

Andy Koren, representative of Wyatt Company, presented a report regarding the status of the self-insurance fund. He indicated that the fund, as projected, will in fact perform better than projected originally based on data that has been generated since the initiation of the self-insurance program. He also indicated that the fund should be able to support the addition of other types of insurance, should the City consider such action.

PZ 93-30-Z Hold Public Hearing and Consider Approval of an Ordinance Amending the Setback Requirements for PD-11 Located South of Alamo Road and North of North Hills Drive and Take Any Necessary Action

Couch reviewed the standards established under planned developments and explained the area zoning restrictions which were adopted. She also outlined the request of the developer. Mayor Williams opened the public hearing.

100

Applicant, Robert Pope, representing Hillcrest Shores, Ltd. and Centex Homes, addressed Council and requested amending the setback requirements for "PD-11". No one else appeared for the public hearing. Mayor Williams closed the hearing.

After discussion, Wilson made a motion to approve an ordinance granting a setback of 20' for a single story structure and 25' for a two-story structure, and to proceed with public hearings to consider amending the general setback requirement ordinance. Luby seconded the motion. Couch read the caption. The motion passed unanimously.

- PZ 94-9-Z Hold Public Hearing and Consider Approval of an Ordinance Granting a Zoning Change from "2F" Duplex to "C" Commercial District Classification for Property Located at 607 St. Marys from Scott Stark and Take Any Necessary Action
- Couch commented on the case regarding lack of proper notification to appropriate property owners when the case was originally heard and approved. She indicated that Planning & Zoning Commission had reheard the case and had recommended approval of the request. Mayor Williams opened the public hearing.
- Applicant, Scott Stark, of 607 St. Marys, requested approval of the change. Since no one else appeared before Council, Mayor Williams closed the public hearing.

Hatfield made a motion to approve the zoning change from "2F" to "C". The motion was seconded by Morgan. Following Council discussion and the reading of the caption, the motion passed by a votes of 5-1 with White voting against due to the screening requirement waiver.

125

- PZ 94-12-FP Consider Approval of a Final Plat of 86 Lots of Chandlers Landing Phase 15 in the Chandlers Landing Addition and Take Any Necessary Action
- Couch outlined the preliminary plat previously approved. She indicated that the Chandlers Landing Homeowners Association had expressed their concern regarding the width of the

proposed streets. She pointed out that the streets were in compliance with current City standards. She indicated that Planning and Zoning recommended approval of the final plat with the condition that the developer enter into a facilities agreement. Applicant, Richard Hogis addressed Council and requested approval of the final plat. White made a motion to approve the final plat for 86 lots of Chandlers Landing Phase 15 providing the following conditions: 1) the developer enters into a facilities agreement outlining the escrow requirements for the improvements to existing lift station and force main facilities, 2) the final engineering is approved by the City Engineer and 3) that all roadways be labeled on the plat as emergency and public access easements. The motion was seconded by Wilson and passed unanimously.

140

135

PZ 94-15-FP Consider Approval of a Final Plat for 8 Lots in Lofland Lake Estates Located North of FM-1139 and East of FM-549 and Take Any Necessary Action

Couch explained the final plat was being presented to the City due to its location within the extra-territorial jurisdiction of the City. She indicated that the property was not located within the city limits. Applicant, Max Schield, appeared before Council to seek approval of the request. Following general Council discussion, Hatfield made a motion to approve the final plat. Luby seconded the motion and passed unanimously.

150

City Manager's Report

Couch reported to Council that the City had met with two representatives of the consulting team hired by the City of Dallas to develop recommendations for Lake Ray Hubbard Update Plan. She informed Council that the time was now appropriate to invite the Dallas representatives to meet with Council in order to emphasis the City's desire to be involved in the developmental process. Secondly, she provided a copy of the citizen survey form which will be distributed throughout Rockwall to Council for their review and/or comments. In addition, Council was provided a quarterly budget report for consideration.

Action/Discussion Items

Discuss and Consider Upcoming Bond Election and Take Any Necessary Action

Williams informed Council that Greg Caffarel volunteered to head a citizen committee to support the proposed upcoming bond election. She indicated that the group had held one meeting which she had attended and that they had recommended delaying the bond election until a route for SH-205 could be finalized by the Council. She also indicated that Mr. Morris with the North Texas Council of Government had stated that they would have information regarding the modeling on the alternatives submitted by the City within thirty days; therefore, she suggested that any decision relating to scheduling a bond election be postponed until after this additional information could be received and reviewed. She suggested that the bond election could possibly be scheduled for December 3.

175 Report on Status of Rockwall Housing Finance Corporation and the Financing of The Meadows Project and Take Any Necessary Action

David Elkins reported to Council that an organizational meeting of the Rockwall Housing Finance Corporation was held with all appointees present. He indicated that background material was provided and reviewed in addition to the approval of corporate articles, by-laws, officer elections, and other corporate requirements. Couch informed Council that the financing documents were in draft form at the present time and that an extension period for finalizing this project had been granted until November 1. She indicated that the necessary paperwork was near completion. Margo Nielsen with the Rockwall Housing Development Corporation also briefed the Council on the status of the appraisals and the title work on the project. Councilmember White requested that this item be on each agenda until it is finalized.

190 Couch recommended additional concrete repair and maintenance work be awarded to Silver Creek Construction, the apparent low bidder. White made a motion to award the bid to Silver Creek Construction. The motion was seconded by Morgan and passed unanimously.

Discuss and Consider the 1994-'95 Annual Budget Revisions and Take Any Necessary Action

Couch outlined revisions to the 1994-'95 annual budget and indicated an additional request had been made by the Historical Society and the Agency on Aging. Following Council discussion regarding possible budget revisions and public hearing schedule, it was the consensus of Council that the budget would be considered for approval at the next regular Council meeting.

Discuss and Consider the Need for New Noise Ordinance and Take Any Necessary Action

Morgan commented to Council that he had initiated the request to consider controlling some of the loud noise generated by automobiles and radios as they drive on City streets. He indicated that the City of Austin had adopted such an ordinance. Staff was instructed to review some ordinances of area cities and to provide Council with a recommendation at a later date.

Discuss and Consider Contract of Award to Lantel Systems, Inc. Regarding the Installation of a Local Area Network for the Police Department

Couch reviewed with Council the network to be installed in the police department which had been previously discussed during the budget worksession. Hatfield made a motion to award the contract to Lantel Systems, Inc. in the amount of \$13,584. Luby seconded the motion which passed unanimously.

Discuss and Consider the Appointment of Ad Hoc Committee or Study Group to Evaluate Operational Cost Savings and/or Improved City Services Regarding Privatization or Private

Contracting and Take Any Necessary Action

Discuss and Consider Award of Bids for Drainage Improvements

Couch reviewed drainage improvements bids and recommended East Texas Construction, as the apparent low bidder. White made a motion to award the bid to East Texas Construction. Wilson seconded the motion which passed unanimously.

Discuss and Consider Approval of the Median Improvement Program

Stacey Robbins, Personnel Specialist, presented an overview of the Median Improvement 235 Program. She indicated that the program overall would cost the City approximately \$41,000.00 for the installation of irrigation; however, this cost would be expended over a period of years when each phase was initiated in the program. She indicated that the first phase may be the Northshore islands because irrigation was already installed. She also explained that the goal of the program was not only to enhance the natural surroundings of the city, but to involve the 240

community in a major role in providing maintenance and upkeep to the medians.

There was discussion regarding funding for the cost of the irrigation installation. It was also pointed out by Council that Yellowjacket should receive a high priority due to the visibility of those islands. It was the consensus of the Council that recycling funds should be used for this purpose. The report was accepted by the Council.
